# EURO UNITS

## ***THE NEW INTERNATIONAL MONEY***

***by Grandpa—1978***

(From "Euro Units - The New International Money!" ML #738, Volume 6, November 1978)

### **NOTE FROM EDITOR:**

Way back in 1978 Grandpa heard about several European countries wanting to unite their different types of money into one common currency\* for all of Europe. As he prayed about it, the Lord gave him a prophetic look into what was going to soon become a reality. It's planned that in January of 1999, many European countries are going to adopt a common currency, called the Euro. The plan is that by the year 2002 (the year when Euro banknotes [paper money] and Euro coins will start being used), the Euro will completely replace the local currencies of all European countries who agree to use it. Currently several European countries have agreed to use the

Euro, and more of them are considering doing so.

But what does this mean to us? Here's what Grandpa said about it twenty years ago.

\*currency: money

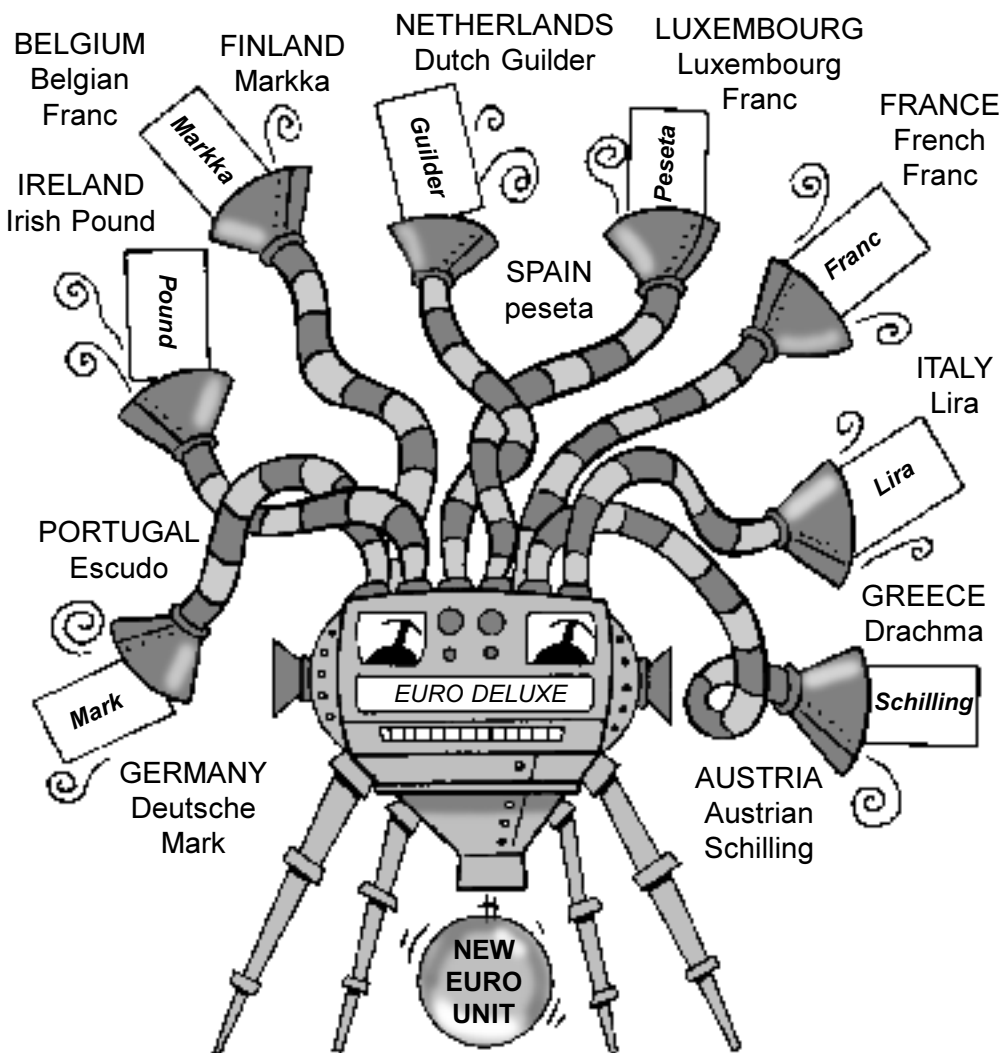

Politicians and financial experts have always said they'd have to develop a common European currency before they can have a real united Europe.

So they are being forced to develop a European currency because of the fall in value of the dollar\*. They're going to have to produce a common European currency, some kind of paper and coin money.

\*(Twenty years ago in 1978, when Grandpa wrote about Euro Units, the U.S. dollar had lost much of its value, compared to its buying power of a few years before. Since then the dollar has gone up and down and is back up again. This caused many European countries to want to use a common European currency, rather than relying on the unpredictable U.S. dollar for doing business with other countries.)

Europe is taking a big step toward the development of a general European monetary currency. Just think, if Europe develops a common currency, their own paper and coin money, there'd be no more money exchanging\*!

I bet it will save the banks and the countries billions to cut out all that money exchange business!

\*That means no more having to change the currency of one European country to the other European country's currency when you cross borders.

But they're going to have some kind of a name for it. While I was thinking about it, I heard a voice, just the way I hear those other things in the spirit, and it said:

Euro  
Units

Now I really don't think it was my mind at all.

Wow! Euro Units!  
That's what people are going to call it.

Later I prayed,

"Lord, why did You give me an answer so easily on something that seems so unimportant to us, when a lot of times I don't get any answer for something I really want to know!"

And the Lord said,

It is important!

*Sample of the new Euro coins*

At first, several years ago, they called it Economic Currency Unit, but now, similar to what Grandpa got in the spirit, they have settled on the name "Euro."

Then I wondered about this world credit system the Antichrist government is going to

develop, that it talks about in Revelations 13. We know they're already working on it. (Read Revelation 13:15-18.)

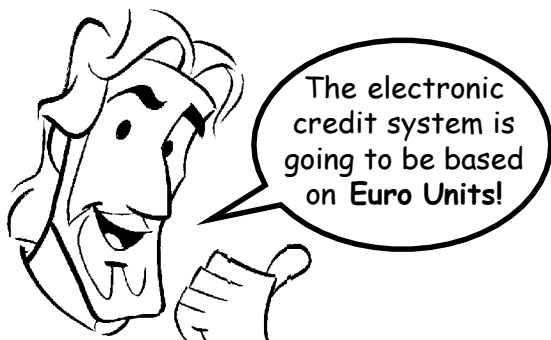

They've got to give everybody a number and they've got to get the system all set up and worked out.

Since Grandpa said this, banks and financial companies have developed new ways to buy and sell without the use of paper and coin money. They are called "smart cards" or check cards, and credit cards, with which people can buy things electronically, right in the store. And now they have been trying to develop a system which doesn't even need cards any more, giving every man, woman and child a PIN number, or personal identification number, which can be used in the same way.

I thought, "What's going to happen to the Euro Units when that computer takes over?" And it came just as clear as anything,

The electronic credit system is going to be based on Euro Units!

The biggest obstacle to setting up the world credit system has been the differences in currencies. They have got to develop a single unit to base their electronic credit system on, and the Euro Unit is the beginning.

This whole thing is paving the way toward the end! The Euro Units are a step toward establishing a common world currency, and finally a step toward the computerized credit system.—All of this is preparing the world economically for one world government.—The Antichrist's World Government with its world economy, based on the Mark of the Beast! (End of MLK.)

## ***More about the Euro!***

In the last century, the 1800's, U.S. currency was not like it is today; money had different value in different parts of the U.S. This made doing business between individual States complicated until during the Civil War\* the U.S. government issued "greenbacks" (the green paper dollar).

From then on a dollar was worth the same all over the country.

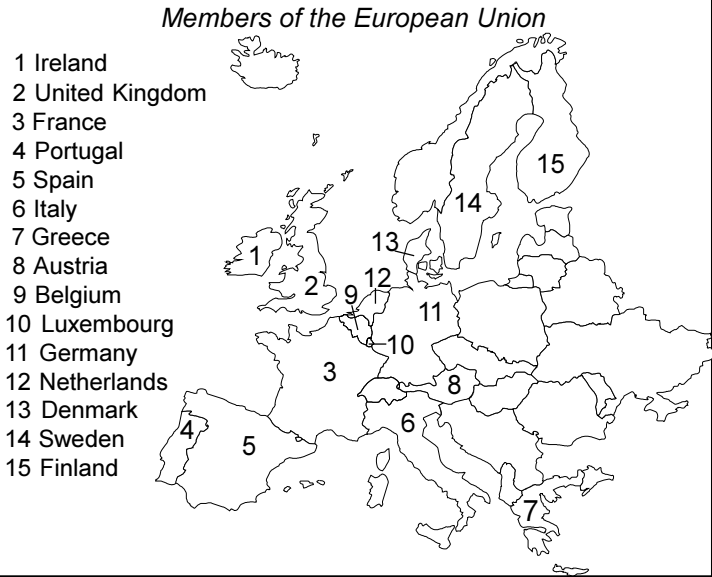

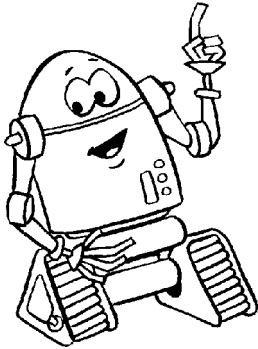

This is the same idea that Europe is hoping to create by making the Euro their one common currency.

The goal is that by the year 2002, the Euro will replace other currencies like the French Franc, the German Mark, as well as all the currencies of the European countries who have agreed to switch to the Euro.

**\*Civil War.** The war in the United States between the Union (North) and the Confederacy (South) from 1861 to 1865. Also called War Between the States. (From Bookshelf Encyclopedia 1998.)

**Read also:** "The Way the Wars Went!—from a dream inspired by the spirit of a civil war soldier." ML #2548, Volume 19.

About a dozen of the European Union's\* 15 member nations will use the Euro as their common currency.

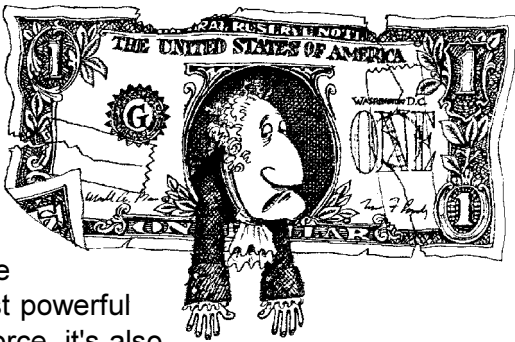

\*The European Union (EU) is a union of countries in Europe. There are presently 15 member countries, but some will not yet be members of the European Monetary Union (EMU). Britain, Sweden and Denmark are not joining the monetary union yet, but if they do, European economic power will compete with, or perhaps even be greater than that of the U.S.

## **Euro versus Dollar:**

Many Europeans are hoping that the Euro will compete with the U.S. dollar in importance in

the global (worldwide) economy. While the United States is the world's most powerful economic force, it's also the world's largest debtor! That means it owes the most money of any country in the world! The U.S. owes the rest of the world more than \$1 trillion (\$1,000,000,000,000)!

For this reason many countries may rush to use the Euro for international business dealings, rather than the unstable and indebted U.S. dollar.

The European Union has even created a cartoon superhero to fight the public's doubts over the new single currency—**Captain Euro**. In the cartoon series, Captain Euro fights against the evil **Dr. D. Vider**, who seeks to divide Europe and create his own empire.

### Grandpa speaking:

They've been trying to create this European currency for years.

It's a further step toward creating a one world government. If you can control people's purse strings (supply of money), you can control them—or so it has been said. The System really wants to control your money, because without it you can't do all that much, except for the Lord's miraculous supply.

We've survived by faith and by living on God's dimes alone. We don't own big businesses or have fancy churches, yet God supplies our every need because we love Him and have faith in Him.

Thank God for faith and the Word of God, by which we know that "my God shall supply all our needs." This is tried and proven. Even when there is no money, God will supply.

Even when the Antichrist system is set up, we will still survive on God's supply. We've never lacked for anything we desperately needed. He's always supplied us with food and lodging. Thank You Jesus for Your miraculous supply!

# THE SECRET WEAPON!

AN ENDTIME ADVENTURE!

Part 3

Art by Jacques Elan

(Continued from "Secret Weapon," Part 2—See *Endtime Power 2*.)

In a vision, Emilie, Pedro, and Marcello traveled into the future to take part in some exciting Endtime events. The Lord let them overhear an AC soldier say that some Christians had been arrested.

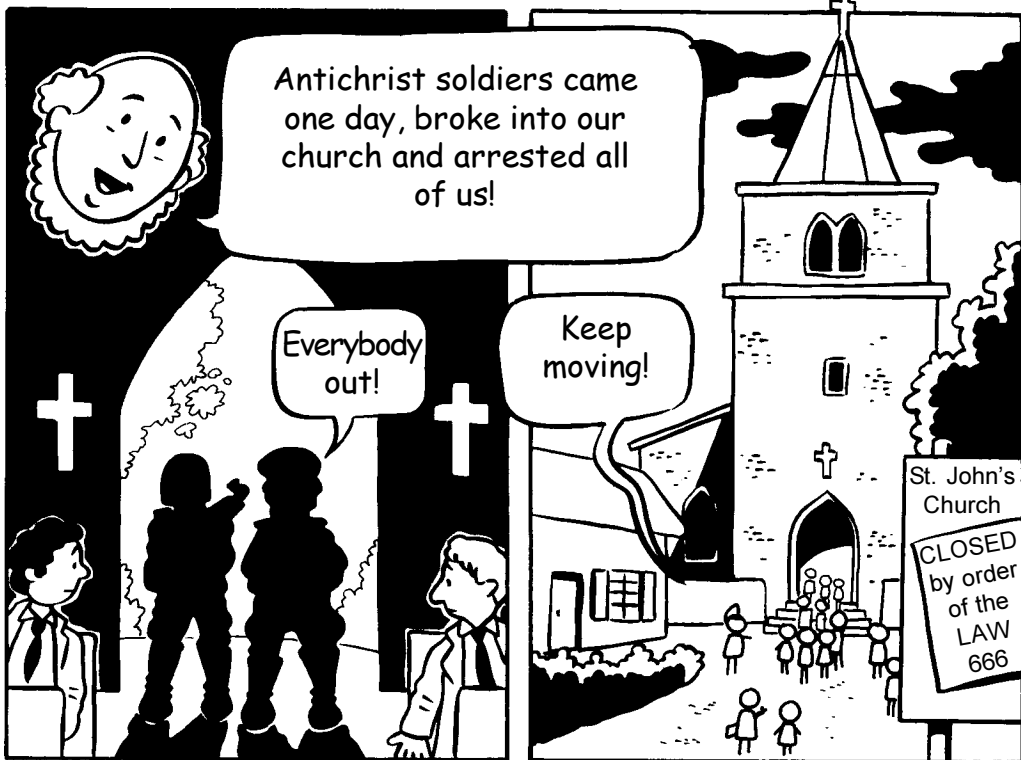

They then realized that their new special mission was to help find and release these Christians. Again they used their secret weapon of prophecy, and the Lord showed them that the Christians were being held captive in an old spooky-looking factory nearby.

Once inside, they saw AC General Grumbacher there with some soldiers. Will Emilie, Pedro, and Marcello be able to reach the Christians and complete their mission? Find out in this next chapter of "The Secret Weapon!"

(Quotes taken from "Endtime Prophecy Power!", ML #3140, GN 756, 4/97)

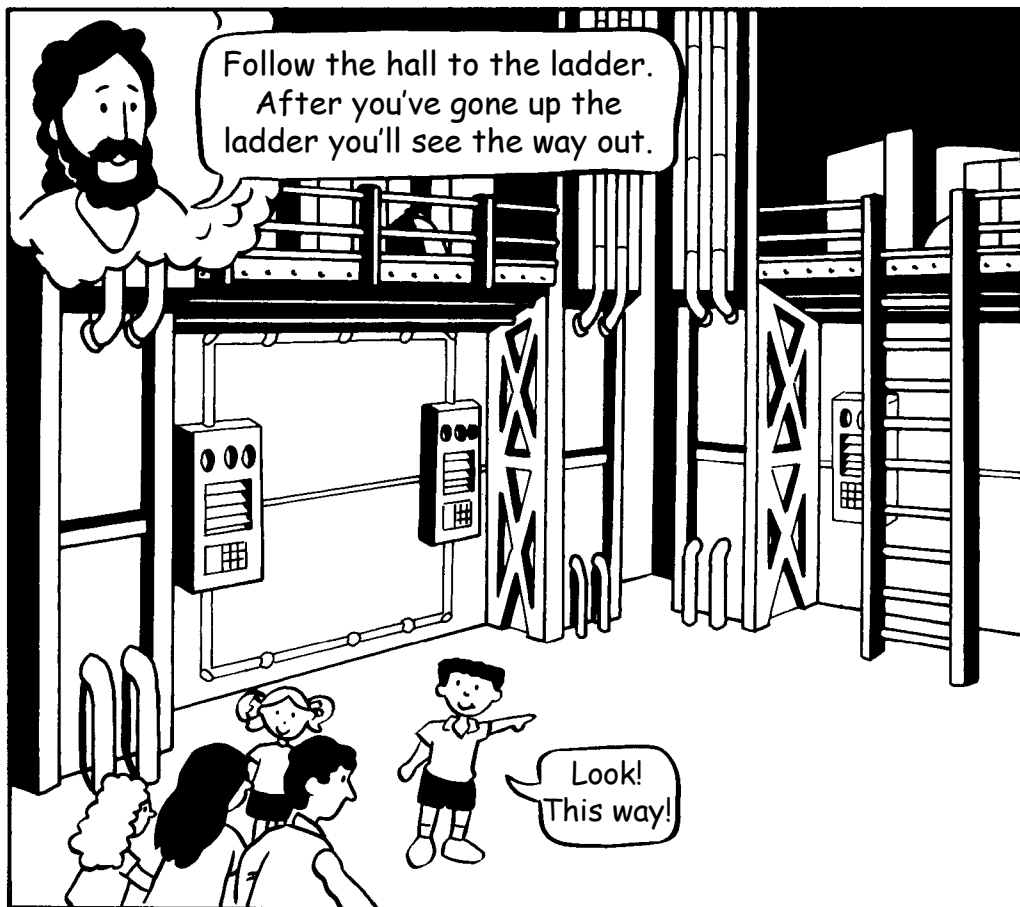

\*I also helped save you!

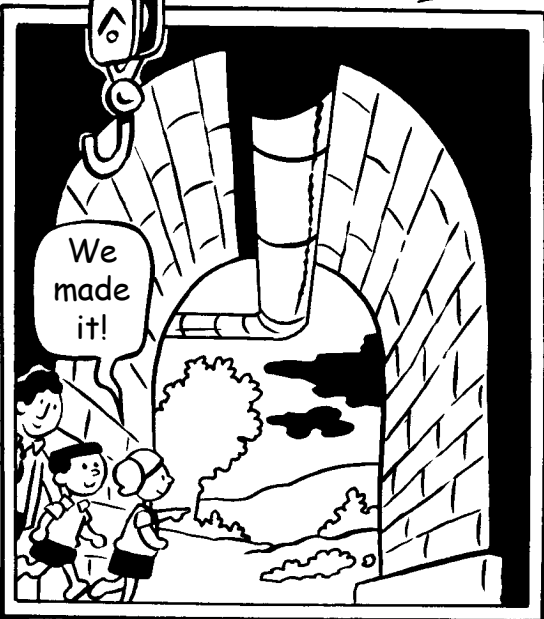

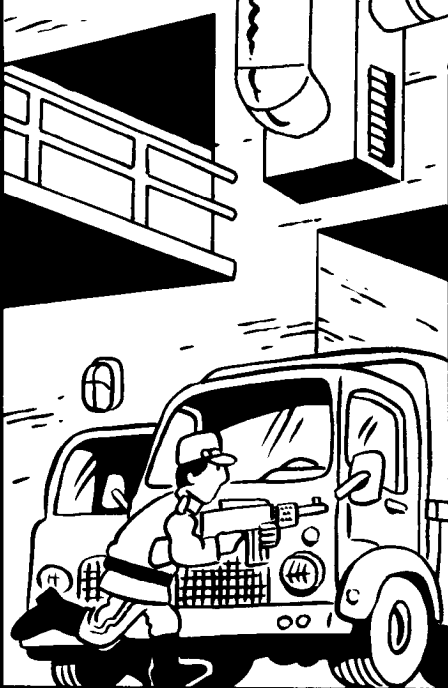

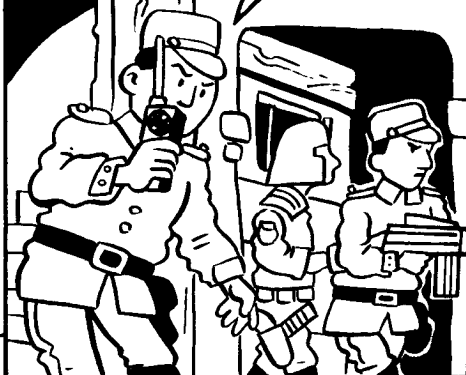

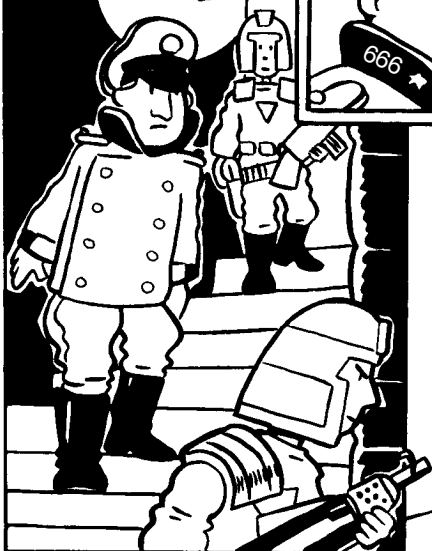

A few minutes later ...

What? ... The prisoners escaped!

Alert! Alert!  
Close all the doors!

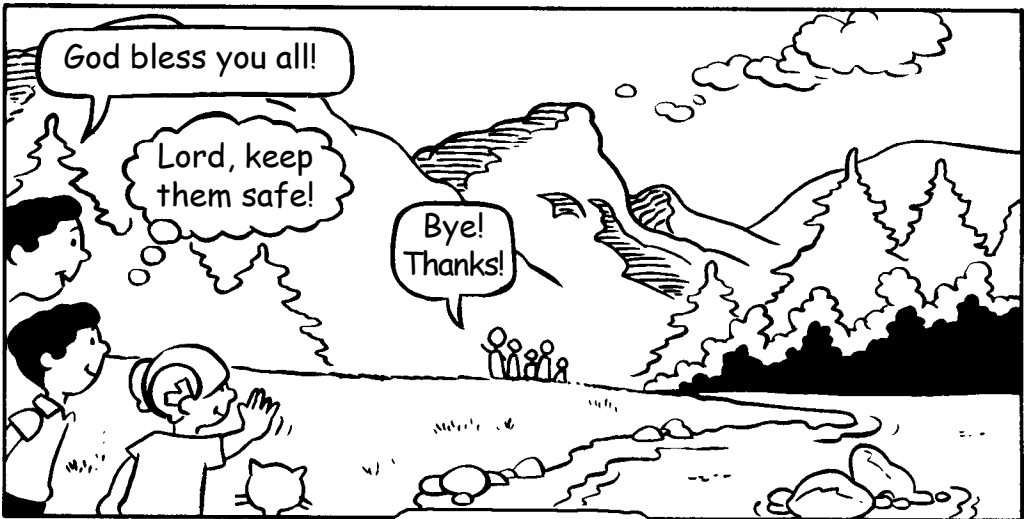

Dear Jesus, please bless these people as they continue to serve You. Please protect and encourage them. Also, we pray for some special Word of encouragement for them now ...

I have delivered you from the hand of the Enemy, because I have yet many sheep for you to reach with My love.

Let's ask  
the Lord!

*This is a weapon that can be in the hands of every soldier! It works constantly and fully and no one can ever take it from you, and it cannot be lost! It's as light as a feather to carry around. It's invisible to your enemies. They can't steal your technology\* or copy the making of this weapon. It's the most powerful, effective, reliable weapon ever used and ever known to man!*

(\*technology: methods and devices used in doing things)

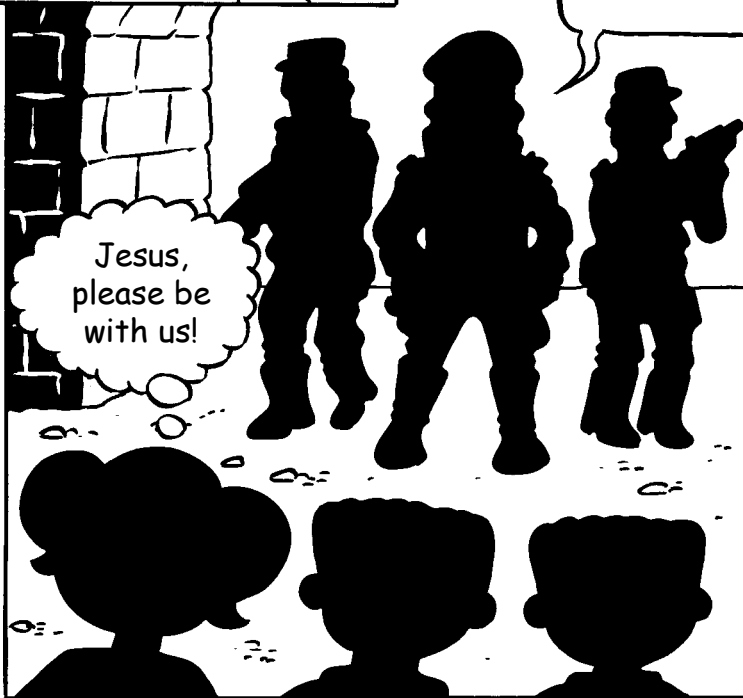

**HALT!**  
No one  
move!

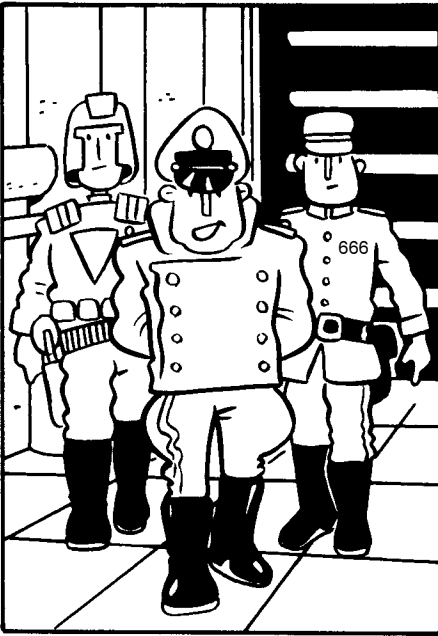

You are  
under  
arrest!

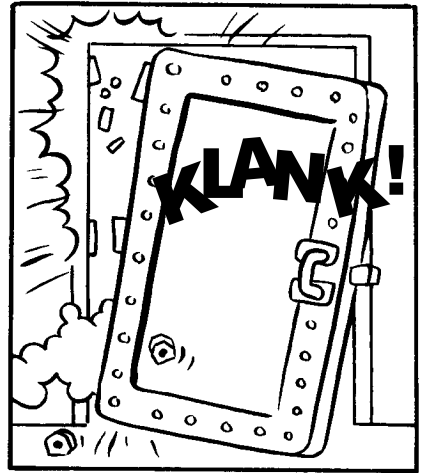

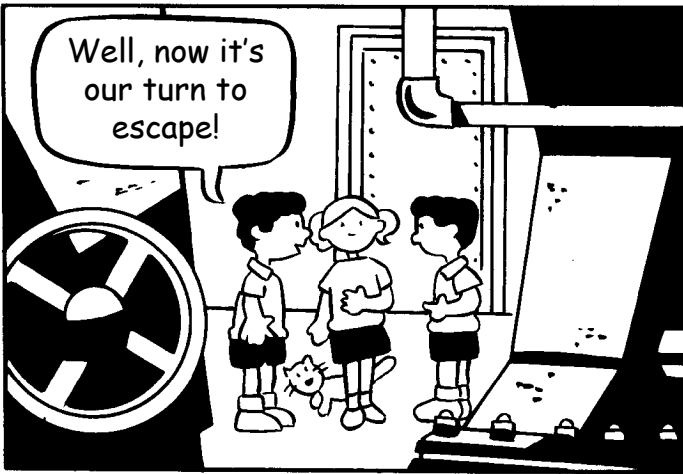

Jesus,  
please be  
with us!

Take these  
prisoners in  
for  
questioning!

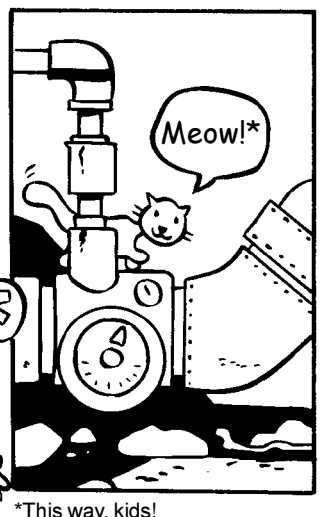

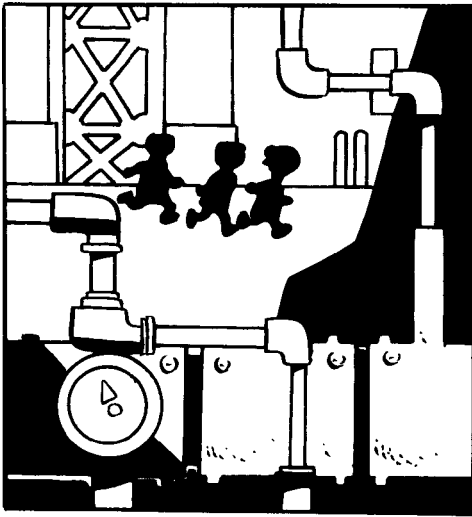

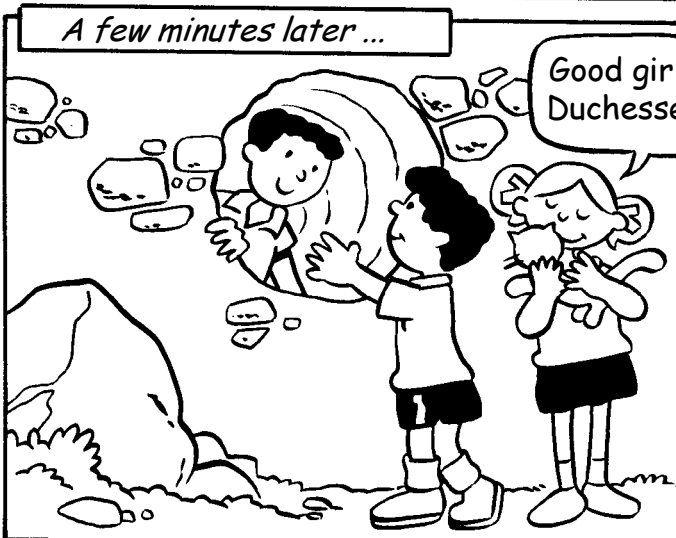

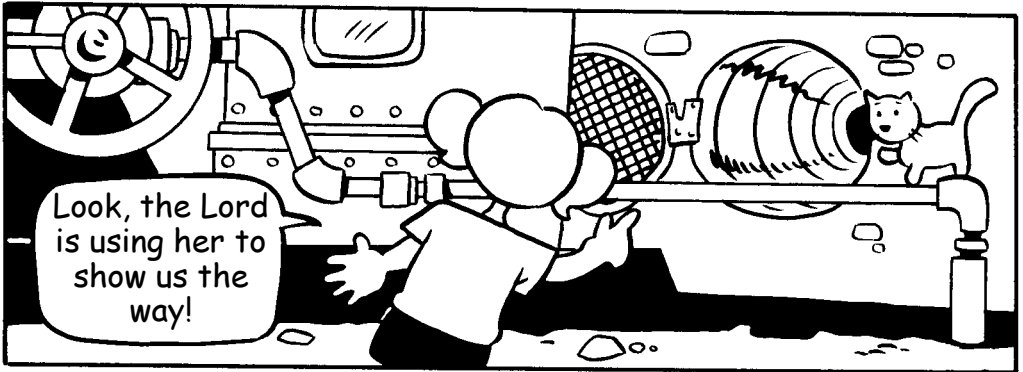

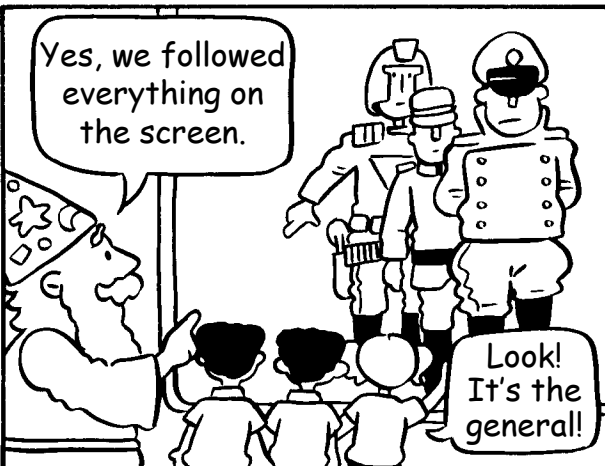

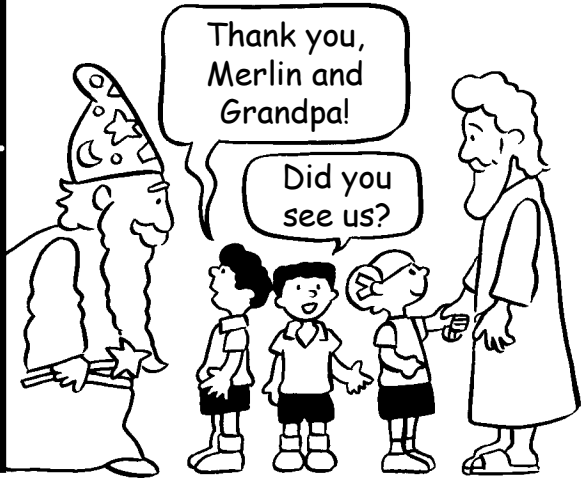

\*See Acts 5:17-19; 12:1-11.

\*This way, kids!

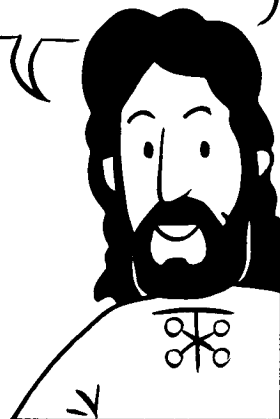

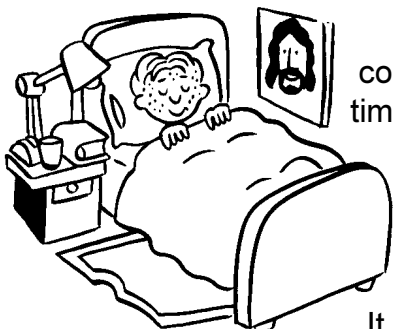

\*Now where are we going?

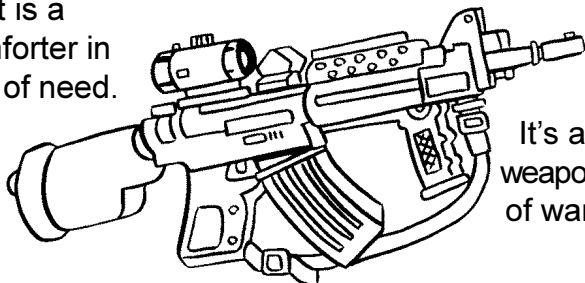

Very few have ever seen this weapon in use, much less been entrusted with its care. It is unique, precious, invaluable!

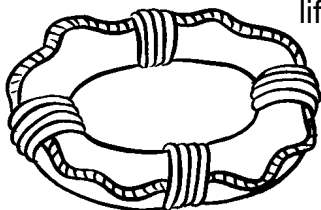

It is a  
comforter in  
time of need.

It's a  
weapon of war.

It is a  
lifesaver.

This is the weapon of all  
weapons that I am  
entrusting into the hands  
of the children of David  
for the Endtime.

—THE GIFT OF  
PROPHECY!

Are you preparing  
your "Secret  
Weapon"? What  
an exciting  
future we have  
ahead of us!

Practice now  
by hearing  
from Heaven!

Meow!\*

\*See you all next time!
