

Cover note for Bridges Classes 6a, b and c

Love and Relationships

Notes:

- Class 6b: Please note that the full text of this class on sexuality should only be taught to those of legal age, in consideration of local laws. Please also bear this counsel in mind when considering giving the students the Study Notes for this class, as it contains sexual references.
- Further class for married students: The basic functions and concept of marriage are explained in class 6C. For students who are married, it would be helpful to look in more depth at the qualities of a successful marriage. You can do this by holding another class, using the material in the **Study Notes No.6C**. Instead of leaving them to read the Study Notes on marriage by themselves, meet up again and use that material for another class, which you can simply read together, discussing as you go through it.
