

yield to the wrong spirit. TG for Dad & his merciful correction. The Letter has inspired me to make a real change in my life (2 Cor. 5:17). Hallelujah!" —Psalms; Europe.

"SUNDAY FELLOWSHIP": "Probably one of the most needed Letters for the Family in a long time. Fellowshiping is sure gonna make us stronger & more united & a bigger blessing to the world!" —Japheth & Victory; Scandinavia.

"ILLUMINATI": "I don't think any Letter has so shaken us up in a long time, realising what a spiritual war we're fighting & how it manifests itself. Made us press in more in our personal prayer life & faithfulness to get into the Word more." —Gloaz & Marina; Europe.

"NUCLEAR MONSTER": "I'm doing some research on the subject, & it certainly does sound true. Many reactors do not use water to cool, but molten salts, so it is very possible that a reactor could leak a white opaque fluid like that one in the dream. I have some very interesting info that I'll be sending soon." —Boaz & Marina; Europe.

1981 CALENDAR: "I love the new Calendar because although the nude ladies in the other one were beautiful, some situations don't allow them to be on the wall, whereas these pics are so beautiful & inspired & super-selah. GB our artist Michael C." —Philip & Nekoda; Canada.

"NUCLEAR MONSTER": "My brother shared with us about an earthquake that occurred last Nov. in central Calif. A nuclear reactor had leaked at Lawrence Radiation Site No. 1. These radiation sites (300 in all) are all underground covering 30 miles (Livermore to Tracy) & heavily guarded. Top security." —Bruce & Aphila; U.S.A.

"SUNDAY FELLOWSHIP": "This Letter has changed our lives so much. As soon as we read

Sunday Fellowship. Complete with Videos: Little Maria, Michael & Lizzy sing "He's Got the Whole World in His Hands". Michael on guitar. Photo by Joao in Portugal.

it we decided to open our Home to the many sheep we have on the line & to invite them for the next Sunday afternoon. Friends arrived & keep coming faithfully, so hungry for fellowship. We always prayerfully organize the meetings as well as invite another Home to come along. We usually begin with songs between 3:30 & 4 p.m. then have an hour of a Mo Letter reading for the big people (often a Daniel or Revelation class) while someone takes all the children to another room for a flannelgraph. From 5-6 we have a communion with the children & everybody. Then we share more testimonies & songs & pray with the unsaved & for the H.G. for those who want to be filled with the power. Then we invite anyone who wants to stay for our soup supper. As a result we now have one more disciple, 2 more catacombs who are going litnessing & DTD almost daily. All this is the result of obedience to the words of David as we follow faithfully what Dad shows us. We went the first step by faith & then God provided the rest. PTL!" —Hannanah & Yalina; Europe.

old unnecessary books & worldly records & tapes around the house!" —Ho, Esther & Ruthie; Orient.

"NUCLEAR MONSTER": "A real New Year's present of encouragement to me! Also, right now we are in a small town & the church opened the doors to us asking us to come with the children to sing. The pastor & members visit us & bring donations." —Lydia; S.E. Asia.

"SUNDAY FELLOWSHIP": "We just follow the information outlined in the Letters on COL & found it worked very well." —John & Anne; Scandinavia.

"PROBLEM CASES": "We both feel it applied to our marriage as it was on the rocks. But now we are beginning to fight the old selfish self & live in God's new spiritual love. I once shared her with a brother & jealousy pops up once in a while but it's just ridiculous. Charity now went FF'ing for the first time in a year." —John & Charity; Scandinavia.

FLANNEL GRAPH MAG: "I got turned on! I was into drawing & painting before so I started painting the Daniel classes, bought a flannelboard & had a show before Steven & Heidi's kids one

night. They just loved it. They took turns putting on the bits & pieces, memorized verses going with the stories & had a good time. They are so good to have around for anybody, as we started showing them to visitors when we feel led. God bless Dad & the artists! It's great!" —John & Anne; Scandinavia.

"ILLUMINATI": "A television program here in Denmark about the Masons caused no small stir & proved how true what John Todd wrote about this. There had been a lot of secrecy about making the program as some other TV journalists had tried to do something similar before but were stopped by the authorities. They took as an example a medium-sized Danish city & showed how most of the ruling & influential people were members of the Masonic Lodge. It showed the initiation rites you had to go thru to become a Third Degree Mason, leaving no doubt who the author of it all is. The Masons were embarrassed & mad at being exposed, but some were also happy that it got out in the open as they wanted to get out of it. The program was one of the main topics in the newspapers for several days, & those who made the program suffered a lot of persecution, even threats to their lives, GBM, & another follow-up program in which they were going to go into further detail was sacked. They finally ended up having a discussion on TV to find out why & proved that there isn't really freedom of speech here as they claimed. A few weeks later the journalists involved were removed to another less influential position. Also, in a news article it was mentioned that the leader of the Order of Masons in Denmark has the title of 'Grand Master' (or Druid) of the Order & Representative of King Solomon!" —Natum & Joan; Scandinavia.

Reading the Word at Sunday Fellowship in Thailand

stirred us up & made us check our own lives & to blank out all our system music tapes. From now on it's only MWM!" —Eleazar & Frankie; Scandinavia.

"ILLUMINATI": "When John Lennon was killed, they minted up a coin with his pic on one side & the broken cross mentioned by John Todd on the other!" —Aran & Gentleness; U.S.A.

"ILLUMINATI": "One of the heaviest things outside the Mo Letters & Bible I have read in a long time." —David & Selina; Br. Isles

"ILLUMINATI": "Definitely took the cake! Of course those things are true! Even look how the Devil contradicted every statement! The Lord is allowing to tell all in the last moments of freedom upon earth before the AC's 'Big Lie' is swallowed for good! GB Dad (God's prophet who spoke first with the overall message & truth). The Lord is just allowing John Todd to fill in some of the gory details! Interesting!" —Cassi & Sheba; U.S.A.

"ILLUMINATI": "Really blew our minds! My father (now dead) was a high-priest Mason, called Master, then secretary & treasurer! Now I know what he was really into! Brrrr!" —Jacob Cartoon & Ghala; Europe.

"ILLUMINATI": "Has been a real bomb to us. It shows us how much the Lord supernatural-

ly protects us from our enemies. It is a miracle that we can operate at all, TYJ! The Letter also gave us more faith to pray for people to be delivered from hindering spirits. John Todd's experiences just back up the Letters, hallelujah! Dad has already said it & so has the Bible. Also, we feel that much more is required of us as we have such truth revealed to us." —Samson & Faith; Australia.

"ILLUMINATI": "Really confirmed the Letters. So very glad Dad published it, a real victory! GBH! Tks! WLH!" —Neaman & Psalms.

"SUNDAY FELLOWSHIP": "Has been bearing so much fruit in unity in all the cities here in Australia & Homes have been coming closer than ever. We felt burdened to share with some of the precious up-&-coming couples to really be open to sharing with & teaching & training all the younger brethren around them & not deny the anointing the Lord wants to give them to pour out because of fear of being called a 'big shot' or whatever. Some of these new brethren who joined after the RNR are super-green & really precious but could do with all the help they can get, since they don't know the Word all that well yet." —Keda & Yasuko.

M&M Mail!

MONTHLY RECAP OF M&M MAIL! Compiled & typed by Keren Tommy

"Just say a word to one of my little birdies and it will fly speedily to the ear of the king!" (No. 238:12) "Problem Cases" & "Prodigal Prodigies" Bring Life-Changing Lessons!

"We have learnt so many valuable & precious lessons from the Letters, especially the recent ones like 'Problem Cases' & 'Prodigal Prodigies'. As you said in 'The Unguarded Moment', 'There's not one of us that's above it, none of us are any good!' — How true, it could happen to any one of us. These Letters have really shaken us up & have made us check our own hearts & motives & rededicate our lives & talents to the Lord, His Family & you, & we are really trying to use our talents again for His Glory. We have learnt so much by following the Word closely & it's so much fun to really love & obey the Letters instead of being 'hearers only deceiving ourselves'." Ruthie & Michael, Europe

"I especially wanted to thank you for the recent series on Justus Ashtree & Ilo & Esther as I personally have learned so much from them. Having spent so much time in leadership positions myself up to the RNR, I didn't even realize fully some of the things that I needed to get rid of such as coveting positions & just being able to be thankful for all that the Lord has done for us & given us. It has really set me free to have had these things exposed as these Letters are like lights shining directly into our hearts & showing us how they apply just as much to us. We pray that we will be faithful to truly eliminate all these besetting sins & get on with the things the Lord shows us to do like never

before. We are now on the way to Hong Kong & are so thankful for this new challenge ahead!" Lots of Love forever, Asher & Amana, Europe

"Thanks especially for letting us learn through the recent Letters concerning Ilo & Esther. We're so grateful to Jesus for the mercy He's shown us in our lives & for His Love toward His Children when we step out of His Will. We are so very grateful to you to trust us with the knowledge of all these internal affairs as these Letters & re-proofs & rebukes & apologies & confessions have affected our own lives greatly — to examine ourselves & repent of our own sins & get back on the track where we've gone astray!" In His Love, Ben & Ruth Davidson, Europe

"After reading 'Problem Cases' & 'Prodigal Prodigies', I'm even more thankful for you than ever! Two of the first impres-

"I'm eternally grateful for all you have done for me & for your precious Words of Life!" says lovely Lamb, Europe

sions I have are how hard you work & those working on the Words & how much you all accomplish. I want to have a new R in our lives & be a greater blessing to the Family & others. I was rocking Sharon to sleep last night. & I looked around me at Miracle & Gabe & our little room with all its comforts & Family posters & all the new Mags. & it made me so thankful — I have so much to be thankful for & all because I'm serving Jesus! Money can't buy what I've got — nobody in the whole world could give me what I've got — only Jesus & you & The Family! PTL!" Love, Josh, S.E. Asia

"I stayed up late to read 'Problem Cases' — whatta shocker! It really exposes those who want to be 'leaders' & those who want to be 'servants'. It was so beautiful to get a glimpse into the Family atmosphere at WS & your utter devotion to the Word! I pray that all the Family catches such a devotion-what an explosion that would cause!" Much, Much Love, Daniel Love, Latin America

"I am so thankful for all of the Letters & new wine & especially for the Letter 'Problem Cases'. I learned so much. It brought up all the memories in me of the lessons I've learned this last year when I was almost backsliding when the division happened here, started by Roser. Your Letter spurred me on to fight. Dad, I'm so very thankful that we may learn so much of you. GBY for saying so frankly the truth. GBY for still loving us & having so much mercy on us. You've given Justus so many, many chances to change, may God help him, he is going to have to learn the hard way now. May the Lord help us never to rebel towards the Voice of Him thru His Prophet. It's beautiful to know that with the Lord we can live above self & be a new creature! I love you so much!" Carolina, Tenerife

"Problem Cases" was a real lesson to us all to watch the danger signals in our own lives. Also, at the end about how you actually sometimes get oppressed & down & sick about dealing with these problems — I never thought of you actually getting

attacked over these things. Thank the Lord He brings you through these big trials. It reminds me to pray for you to have faith & also for Maria who must have such positive believing faith to help you always to believe what the Lord gives! I love all the new Letters, especially 'Why Disasters' because it is so clear & answers so many thoughts of why people die, etc. The subject of Death is always a mystery & so a subject of curiosity & wonder to people & always comes up when witnessing. Well, it helps me to get more victories over Aaron's death also." Love, Shula

Special kisses to you, Dad, from your Flirty Fishies in Indonesia. (Top l-r) Crsti, Indonesian Catacomber & Nadia from Germany. (Below l-r) Shane, striptease dancer from England, Nekoda from U.S.A., Deborah from Japan & Maria from Germany. Photo by Philippe Gypsy.

"There is one quote in 'Prodigal Prodigies' that really stuck with me, what you've said about Faithy, that she is making it because she just follows & obeys, because she believes in the Words of the Prophet & does what she's told to do! GBH! For me she's such an inspiring sample!" With Much Love, Priscilla, Scandinavia

"I read the Letter 'Prodigal Prodigies' & I know myself how much I need these words! Simon, my husband, is the most loyal & faithful person that I know & I love him very much. But many times I am a rebellious wife. I have, though, many
