

Still, knowing that times are evil & that we have the Words of our Prophet that warn us to watch our steps & try not to be stupid, we do not go pell-mell all over the place distributing, but we just limit ourselves to reach the university students who are, according to "Go to the Cities" the most important people to reach & here are really hungry & receptive. Plus up to now, not only not the government but not even only one single policeman told us to stop, as mentioned in paragraph 70.

Finally, this is not "a closed country to the Gospel" & neither of "another predominant religion" so that I believe that we are pretty much "knowing their meat" with Jesus' help. (1004:70-72) Then we got "Registration?--Or Scatteration!" & in this Letter it shows how you cannot be a revolution & at the same time try to get the approval of the System because, "...if you try to change to please them by compromising & conforming you are no longer a Revolution! So you don't dare register that much." (par.16)

Well, I believe in a "Maturation of our Movement" but when you get down to it the System will never approve our tactics & policies because we are the opposite. In fact, you can see now that since they are trying to do it the nice, comfortable System way they are now finding out that, "...you never get something for nothing out of the System!" (par.22) So the Enemy now has completely won over them at the point that they cannot even print any more.

By the way, they also said that the law was enforced on the print shops too, in a way that according to the Family here, nobody would print anything for you if you don't show a registration from the government. Well, one week later a sweet printer printed up 2500 pieces of "Life After Death" for free without the minimum questioning. Instead, when I went to pick it up the guy said, "Your message makes you think." GBH.

But from the same Letter ("Registration?--Or Scatteration?"), I could also understand that one of the reasons that the brothers here are compromising so much is because, "...The minute you settle down or settle in one place too long, the local System & even your kings & queens wanna get you legalised, registered & recognised!...Never lose the pilgrim spirit! Keep moving!" (par.14,19) And if we had to be like that years ago when we were much more radical, how much more now when so many people are involved with system jobs & all, that this warning should be followed?--Unless the Lord has a special call for you to stay or "schtick".

The last two Letters we got were "The Right to Witness" & "What to do When Persecuted" where it explains really good that all this controversy about going seilah, underground etc. should not even be considered before you are stopped from the police or forbidden to do so & that, "...if they persecute you in a city..." after you're through with that place & the message did get out & the job is done, then "...flee ye to another!" or go underground! I mean, it's so clear! But how can you be so paranoid of a little persecution & problems if you don't even give out the message?

But instead of for the giving out of the Words, I think that the problems here are gonna come from the Judgements of God like predicted

much & pretending to be whole hearted when they are not & even try to stop you from being so, then I feel like, "...you have got to have convictions or you can't live with yourself! You have got to be convinced that you are right & fight for what you believe in or your attitude will be-- "Oh, so sorry, excuse me for living." (DM July 28)

And that's exactly what happened when I told the VS how I felt about it, he said, "Well, you can't just think that you are right about it, & all the others are wrong, you can't just force some people to do more than they are able or willing to do." Well, I am sorry to say, but he is acting just like you described in "Good Shepherds" when you said, "...you can't go by any popularity at all! I mean, pastors in churches, they have to win the popularity poll & you know who the people vote for? (Maria: The one who is going to let them sit around.) Exactly! The one who is not going to disturb them or wake them up!..." (1002:85-86) And you know, when your comment on the VS came, it was already popular pretty much that he was the most indicated to be VS. Well, that's my opinion.

Finally, on the report appears how tripped off these people are through what they said about the refugees, survival, & all your question marks & through the misconception of the Endtime sitting in a rocking chair like the churches for a future dreamy ideal possibility to do the job that the Lord gave us while the souls go to Hell. How silly!

You know, Dad, as I wrote you in the past letter of May 5th, when Faithy came in March, at the last 15 minutes of the meeting she made five or six comments to which I didn't agree & I thought that she knew too little of the country to speak about those things & I explained to you in that letter all about her comments & the reasons of why I didn't agree. One of these comments was that S.A. has to be considered a refuge for the future for the Family & that we should try not to destroy its security, but preserve it.

But since refugees hadn't come out yet, this at the time really put me to confusion. But then after praying I got the verse 953-1:125 that says, "...where there are many many sweet precious Latin Americans who need Thy Gospel & need Thy love & are open to it & there is greater freedom to witness at least for the time being..." And TG that verse made light confirming us that we are to take advantage of the "golden opportunity".

But you see how people take her word as from you, while in this case she was leaning on her own understanding. It's easier to follow a personality more than the Spirit, especially in this case. Most people say, "Oh, she could never be wrong." So, sad to say, this statement about the future refuge came from her. But it was happily accepted by all the members since it backed their beliefs.

In conclusion, we would like to send you a few of the words from some of the letters that we received from the youth of this place whom we are feeding through the mail who wrote in after receiving MO Letters on the streets from us. (Answers translated from Spanish.)

"The True Komic 'Love is the Answer' was to me really enjoyable. A couple with two lovely children gave it to me & to see them so happy &

in Isaiah 1:13-20 on a disobedient people. (See 804:3-12 & 814:1-22,27, 28) Well, all this was more or less what made us decide to keep litnessing, so that what happened was that the Family decided not to have us any more in the fellowship, I guess because we went against the majority.

Well, as we wrote in the last report, even though we thought that it's not fair to drop a Home like that, leaving it completely without fellowship, we realised that it was better anyway. There might have been a few of the brothers that in their heart maybe thought of continuing to visit us, but I guess it happened like in Jesus' time when many believed in Jesus & loved Him, "...but they didn't confess it lest they should be put out of the synagogue." (Jn.12:42)

The reason for which we thought that what they did was better, it was that first of all as you said in "Breakdown", you cannot stay close to compromisers long without speaking out or compromising too! Second, because one time I got the verse of Isaiah 1:13-20, that I mentioned before where as you know, God is promising judgement to the wicked pharisees for their hypocrisy & sins. But we feel really sad for not having a good Family around whom we can fellowship with, especially for our kids. We trust the Lord for that.

But going back to the report of E & L, I would like to mention that first of all it says that litnessing for free is perfectly legal while as you can see now is not legal just as much as asking for donations. Plus, what is it really worth to give out the Words away for free in mass distribution like publicity pamphlets? What's the difference between that & mail box litnessing? Isn't always a "...lazy man's way & like scattering the seeds with your eyes shut hunting blindfolded with scattershot? Why bother? You might plant something or hit something but most likely won't! Personally, I like to look for good ground, good fishing, good game & not waste my seeds, bait or shots on thin air! Amen!" etc. (895)

Also, he mentions how one person can work to help for support & cover which it would have not been that bad if it was true, but can I ask you something, Dad? Do you want to know the truth if they're really do what he says & "Use It" to be more efficient?--Or if this is just a plain desire in the hearts of few & a mere excuse in the mind of many shown by the fact that practically everybody has got a teaching or other job which occupies a lot of their strength, time & energy & leaves almost none of these three left?

Ask the Family here in their week time, every day, how many hours they spend doing what! Because even if in one hour you can give out 1000 pieces of lit or go to an orphanage & pray with 150 kids, only the Lord knows where your heart is at. You may say, "Well, why does it bother you so much, let everybody do according to their own faith."

Well, I would really be happy if things were like it sounds in the report; some working, some litnessing, some FFing & so on, so "every man could abide in their calling" in a united work of the whole body. (960) But, when people become weak little girls & compromisers & they "...entangle themselves with the affairs of this life" (2Tim.2:4), so

believing made me want to be like you. I am Catholic but I found that your Komix fill the heart & get deep in the heart where only God can get, that that's why I am writing, because I met you & because of the Komix."--Judy, 15 years.

"You know, it's really beautiful what you people do & the message that you give of love toward God & toward our neighbour as ourselves; I think that your group is one of the best things of this life & that the ideal of love that you have is the true one. I read often your Komix because they make me feel really good."--Niefa, 18 years.

"Your Komix are like a shower of fresh water that makes you remember of simple true & really deep things. Honestly, I can tell you that sometimes I found more things in your Komix than in the most complicated books of philosophy."--Carmen.

"By accident a friend of mine showed me a Komic, "Long Live Love". Well, I want to tell you that I really like it & that I would like to receive more since I want to make a collection of them."--Ruty, 15 yrs.

Well, those precious sheep really inspired us to keep going even when we were fed up with the whole situation here. TG.

What more can I say, two things more maybe that you already said, & one is that, "...you cannot hide your candle under a bushel, that's all there is to it!" "A city that is set on a hill cannot be hid." (Mat.5:14, 15) "We may try because of the persecution & the propaganda, you may try to hide to some extent. But we just can't hide our witness, our lamp, our flame, even if it's only a candle! You are not going to be much good to the rest of the World if you keep hiding your light & crawl into a hole where nobody can see you!...It's a sacrifice to witness! It's dangerous to witness! You are bound to get some propaganda, persecution etc.! But still, we have to do it!" (848:108-110)

And this is also confirmed in the "LNFs" No.1025, par.3, where you explain how there is a message to every part of the World of which we are responsible to give, the message of doom & destruction to the wicked U.S. & Western Europe & I believe the message of love, salvation & eternal life to the sheep of the countries like this one which is closed to politics & other types of messages but open & receptive to the simple but deep love of God through the Words that He gives you.

The second thing I would like to say is that to the article from us published in Mag 41, Page 180, I would like to relate these words of yours, "...who the hell are you scared of? The Devil? Well, you better be scared of the Lord because you are disobeying the Lord & failing God in the job He's given you!...His Kingdom is soul! His Kingdom is missionary work, His Kingdom is reaching the lost with the Gospel!" (1003:42,22) The title of the article is "According to your Faith", but "...it's impossible to have faith unless you have the Word." The Word, like the verses that I just mentioned, it's the Word that gives you power, strength, faith, love, wisdom & the reason to keep fighting & that shows you the way to fight.

When Jesus was putting the people to a test of faith & they were making it, then He would say, "According to your faith be it done unto
