"LIPE BEFORE LIPE"

subjects felt their "true inner self" to be either male or female. "(Maria: I guess it wouldn't matter, would it? I mean that's <u>spirit</u>.) No, of course not! There's 'No male nor female in Christ Jesus. (Ga. 3:28) In the apirit world that doesn't matter that mucn-except abrahim still loves to fuck! Ha (795:16)

WHEN THE VOLUNTEERS WERE ASKED WHY 1MEY HAD CHOSEN THIS COMING LIFETIME, most said that It was to learn to relate to others & love without being demanding & possessive. When you saked the purpose, it came clearly to me that it was to make up to some people for the hurt that I had caused them in former lives. Another said, "The burpose of my birth was to go down & take cloud peace & light I knew before I was born, and spread it around. To go into the confusion of this society & to give out love as fully and freely as possible in whatever situation I get into." And others said that their purpose in returning was to learn love, compassion or humity. As the psychologist said, "Their responses indicate that at a subconscious level, the Golden Rule, do unto others as you would have them do unto you, is the basic law of the Universe!"

NEARLY ALL OF THE SUBJECTS REPORTED BEING AWARE OF THEIR MOTHER'S EMOTIONS BEFORE A DURING THEIR BIRTH. Some even felt the emotions of those in the delivery room where they were born a the nurses who took care of them while they were a newborn. Many said that they were aware of the wother's feelings because they weren't locked into the fetus at first, but instead seemed to be hovering around it!

De hovering around it!

NO MATCER HOW ENTRUSIASTICALLY MOST CHOSE TO ENTER THE WORLD, they usually said that they found the sotual experience one of lordiness à aliesation from the "land of light" that they lost when they once more entered into the physical world. Some felt sad or even cried tears during the birth experience. The most frequent report was that they felt cut off, dininished, perience. The most frequent report was that they felt cut off, dininished, alone compared to the between-life state. They had to begin all over again, alone compared to the between-life state. They had to begin all over again, when said; I twas as though I took a final trip inside the fetus, down the birth canal, and it was like a door shut & locked. As soon as I was born, I felt like I was going into a new clase, I had a resdy-to-learn feeling."

IN THE CASE OF PARMATINE PRINTER, three of the subjects reported that they

IN THE CASE OF PREMATURE BRIDES, three of the subjects reported that they were counselled by others during the time that they were developing as a fetus, and were told that they needed to burry into the body because birth was occurring faster than expected.

CTHER SUBJECTS WHO HAD CAESAREAN SECTIONS expressed a common feeling at birth - loneliness. One said, "I was pulled from my mother's womb. I was birth - loneliness. One said, "I was pulled from my mother's womb. I was aware of blood wround, and intense feelings of loneliness. Cold & bright lights. But my greatest feeling right after birth was that I wanted to be lights. But my greatest feeling right after birth was that I wanted to be held a cuddled by my mother. It wasn't possible for her to do this, because she was anesthetized a simply wasn't there. I felt so very all alone."

ABOUT HALP OF THE SUBJECTS COULDN'T REMPMER BEYOND THEIR BIRTH, but many of these reported a specific phenomenon as they went into hypnosis & were questioned about their birth. They reported that they began to see colours drifting in front of their closed cyclids. There didn't seem to be any one consistent colour, each subject seemed to see a slightly different one!

consistent colour, each subject seemed to see a slightly different one!

SUME OF THOSE WHO COULD RE-EXPERIENCE THEIR BIRTH REPORTED THAT THE EXPERIENCE CHANGED THEIR LIFE. One said, for example, My major smotion was not that of fear, which I had sort of expected. The experience was more one of deep compassion. I felt-compassion not only for the infant who was me, but for my mother & indeed everyone in the delivery room. It was as though I was leaving a beautiful, brightly-lit place where many things were open to me, to come down into a very closed & buzzling environment. It seemed at though I knew will of the troubles that lay abend, and I felt that it was such a waste that we humans didn't understand."

*LIFE BEFORE LIFE" -- by Helen Wambach. Fubilianed by Bantam books: Review by Volenk Re

"THEY IVE GLT CASES WHERE THEY EVEN CLAIM TO HAVE GOTTEN SUBJECTS TO REFER-HER THEAR MOTHER'S WORD - & REYOND! Now this I've always said was someone who had a femilier spirit or someone who was being assisted by a spirit nelp-er, a when they got back to that point, then the spirit was simply telling about 11g pre-existence. It was 't actually the spirit of that person but unother spirit, savey?" (795:13)

THE FSYCHCLGGIST DID A STUDY OF 75C VOLUNTEERS UNDER HYPNOSIS & got almost 50% of them to return to the experience of their tirth aremember it clearly - in detail - and some even "remembered" further, to previous lives that their spirit belpers had lived! Once the subjects were under hypnosis she took them back a little at a time, remembering first of all the use of 1b, then 1c, 5, 3 - and then literally "out of the body", as she herself described it, to remember the birth itself!

self described it, to remember the birth itself!

CYER CC CF THOSE WHO REFEXEERED DEVOND BIRTH SAID THAT THEY HAD CHOSEN TO BE ECHN AGAIN & that it was their choice to make. The same chose reluctantly, only after consulting with advisore, others said that it was like freely choosing to do service in the ermy; not something you'd automatically do, but something that was necessary. "In other words, what would be more logical than to say to a departed spirit: 'Ok, Now you know what the score is, so now so back add a better job this time than you'did before!' If they can come back right many a re-ensure the same body, why couldn't they come back much later in a mey body? They can't go back into their old dead body! It's been buried a rotten a gone! So what would be the most logical way to send them back?—If they're going to have a chance to undo some of the damage that they did a try to make things right a live a better life; hun?" (7951:A;2) One said, "I didn't want to go through another lifetime again, but I felt like I needed to learn to love." Another swid, "My feelings about the coming lifetime were that there was a lot of work shead a I wanted to stay where I was. I wann't thrilled about living snother lifetime."

MANY FEOPLE REPORTED THAT THEY HAD AUTISORS helping them! One said, "Yes,"

MANY FEOPLE REPORTED THAT THEY HAD ADVISORS helping them! One maid, "Yes, I chose to be born. There was a group telving it over, but the choice was up to me. Ky feelings about the prospects of living the coming lifetime was that it was like hawing to go to work, getting ready for the journey a packing up my energies." Another said, "I was offered the chance to be born a I agreed at a mort of important conference. There seemed to be an old bearded man there who was a big boss. I was happy at the prospect of living a lifetime a smiled."

MUT SOME WERE RELUCIANT TO LEAVE the place they were at & return to Earth. One said, "When you ested if I chose to be born, I felt that I didn't, because I just wanted to sip eround the universe as a beam of light" Others reported, "I did not want to leave the beautiful garden & my friends there." I was happy on my cloud (Bal) & didn't want to leave it."

"I was happy on my cloud (Mai) a didn't want to leave it."

No, it was just time to go, because rest time was over" Many said that they had chosen it because it was a very important time! I chose the 20th century because this century is the dawning of a new age of awareness, and many, many souls are going to transcend to another plane of onesses." I chose this time period because it is one of great awakening." "This is the most important time of change, and I want to be here for it." I sensed troubled times and it was the last-of a kind of ers. It was rough times, but I felt I had nore opportunity to make people happy in this time." Over 70% mentioned that the last half of this century would be characterised by a new development of spiritual ewareness.

MIRACLE BIRTHS OF HIS CHILDREN!

MIRACLE BIRTHS OF HIS CHILIREN!

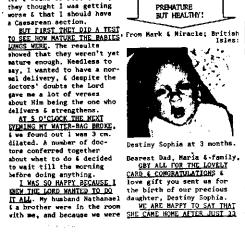

So cheerful & relaxed the nurses left us alone, thinking my labour wasn't progressing much.

From Sarah; Central America:

ABOUT 3 P. M. THEY CHECKED ME, & to their surprise I was 9 cm, dilated. In the delivery room I didn't even feel like pushing, but I pushed & Beth came out with about the third contraction. Then, & minutes later with the next contraction Becky slid out so fast that Nat didn't even know she was out. entral America

I HAD BEEN VERY MEAK
THROUGHOUT HY PREGNANCY, &
at 7 1/2 months the doctors
put me in the hospital because of complications. After 2 weeks of rest there,
they thought I was getting
worse & that I should have
a Cassarean section.

ALTHOUGH THEY WERE FREMATURE, THEY PROVED THE DOTORS' TEST TO BE MRONG by being in good health. The doctors & nurses were really surprised & pleased with such an easy delivery & sald they had never seen anyone enjoy giving birth so much. PRAISE THE LORD. I am so thankful for this life of faith that teaches us to lean on the promises of God so we can see him work miracles:
