

etc. in cash or by money order. Cash doesn't have your name on it & you do not have to put your correct name on a money order.

54. "IF YOU NEED A TELEPHONE, TRY TO GET IT UNLISTED IN AN ALTERNATE NAME. Just giving them the correct address. Better yet, rent a place that already has a phone in the owner's name, or ask the owner to have it installed in his name.

55. "SET UP A 'LEGAL' ADDRESS SOMEWHERE ELSE, even if it is just the closet in a friend's house, containing some misleading personal effects. He can then point to something if ever questioned, but of course he doesn't know when you are returning from India...

56. "USE THIS 'LEGAL' ADDRESS FOR ALL SUBSEQUENT DEALINGS WITH THE SYSTEM. KEEP THE ADDRESS OF WHERE YOU ACTUALLY LIVE A WELL-GUARDED SECRET, & ONLY LET THOSE WHO ARE TRUSTWORTHY & REALLY NEED TO KNOW YOUR ACTUAL ADDRESS. Subsequently, keep your job, personal activities & hobbies well separated & self-contained so that heat in one area will not endanger any of the others."

57. "IF MINOR CHILDREN ARE INVOLVED IN YOUR DISAPPEARING ACT, you might have to get them to accept a new surname. Be serious about it & they should understand. It would normally be best not to give them advance warning of your move so that they cannot tell all their friends & schoolmates. Once you move, have them start using their new names right away, as they will need to get used to them if you plan on enrolling them in a new school. If this is your plan, you will have to give serious thought to obtaining good solid alternate ID, which will undoubtedly be required by the school authorities.

58. "ALTERNATIVELY, IF YOU HAVE SCHOOL AGE CHILDREN & YOU DO NOT WANT THEM TO ATTEND PUBLIC SCHOOLS, YOU CAN:

- a) Find a suitable private school.
- b) Tell neighbours that the children are feeble-minded & that you are tutoring them at home.
- c) Tell the inquisitive that you are a transient visitor from Mississippi, Virginia or South Carolina, states which have repealed compulsory attendance laws.
- d) Move every three months to prevent rumours from spreading too far.
- e) Keep the children under cover during school hours.

116 questions for information that we receive are actually backed up by any punishment. Two basic steps to take in making yourself harder to locate are to get a PO box & an unlisted telephone number."

CONFUSE A COMPUTER

79. "COMPUTERS ARE NOT A CHINESE INVENTION, BUT IT'S GOOD TO SPEAK CHINESE TO THEM AS MUCH AS POSSIBLE. One of the bureaucrat's primary tools is the electronic computer with its enormous files of information on everything under the sun, including people. Actually the computer's omniscience is more a myth than reality & is extremely easy to confuse if you're willing to take the time to do it.

80. "FOR EXAMPLE, MOST COMPUTERS ARE INCAPABLE OF RECOGNISING THE SAME PERSON UNDER TWO DIFFERENT NAMES, as to a computer John R. Jones' & J.R. Jones' are different people entirely, & neither is the same as 'J. Robert Jones'.

81. "ESSENTIALLY, WHAT YOU ARE TRYING TO DO IS TO MAKE IT HARD FOR THE BUREAUCRATS & THEIR COMPUTERS TO FOCUS ON YOU. For the bureaucrats to pick you out of the millions of people in this country is something like the old-fashioned process of homing on a radio signal. Their several receivers had to take a fix on the signal from different directions & the lines from those receivers to the transmitter would be plotted. Where those lines crossed would be the transmitters location. In the same way bureaucrats usually need more than one source of information on you to get the fix, & by using different names you blur the focus.

82. "THIS PROCESS CAN BE EXPANDED BY THE SIMPLE EXPEDIENT OF MAKING A FEW 'MISTAKES' every time you have contact with the government. What happens if you give the wrong street address, or change one or two numbers of your social security number when you put them on a form? Unless it is for tax or social security purposes, the answer is usually nothing, & if someone does make a point of it, you just say that you made a mistake & give them the correct information.

83. "IN MANY CASES, THESE MISTAKES ARE JUST INSURANCE & don't give any benefits, but just make you harder to track down. If your drivers license carries one form of your name, & address, your social security another, you live at a third address & receive your mail at still another, you're going to be a very difficult person to locate, much less harass.

84. "YOU CAN EXTEND THIS PRINCIPLE MUCH

LEGAL AFFAIRS

59. "IF YOU WANT TO DISAPPEAR, BUT ARE IN THE PROCESS OF BUYING OR SELLING A HOUSE OR SOMETHING ELSE OF CONSIDERABLE VALUE, arrange to have an attorney handle the sale & escrow. Wealthy people have always used smart attorneys to cover their moves, so why not you? Attorneys can be counted on to follow their clients instructions & are quite careful about not divulging information to third parties. Short of a court order, data relating to their clients is considered private & privileged. Be sure to instruct your attorney in the manner of forwarding funds to you.

60. "HE SHOULD BE ABLE TO HANDLE ALL IMPORTANT LEGAL AFFAIRS FOR YOU, providing that you give him the power of attorney for that purpose. So be sure to pay him well for his services, as he will be a vital link between your old & new life. If other methods of investigation fail, pressure will probably be put on him for information, so keep him on your side.

61. "AN ATTORNEY CAN ALSO HANDLE ANY TRANSACTIONS PERTAINING TO A WILL OR ESTATE OF WHICH YOU ARE A BENEFICIARY, as these can sometimes drag on for several years before they are finally settled. He might have to know your actual address, but it should not bother him that you wish a little privacy. Attorneys should be used."

ALTERNATE ID

62. "FIRST OF ALL, DON'T BE WORRIED ABOUT BEING TRACKED DOWN BY YOUR PHOTO, as this is only done with notorious criminals who have a price on their head when the great expense & time involved are justified. The FBI admits that at any one time there are about 75,000 fugitives in the U.S., so the Post Office photos can't be working that well, can they?"

63. "AS MENTIONED EARLIER, THE AUTHOR ADVOCATES HAVING ALTERNATE ID ON HAND as it's "plainly comfortable to have the option to cut & run, even if you choose not to. It should be done before you get into trouble, or plan to move & disappear, & properly thought out & executed. In an emergency many other matters will compete for your time, & as well in the future, first class ID may be hard to obtain as well.

64. "THE BEST ID TO OBTAIN IS GOVERNMENT ISSUED ID, the most important of which is a social security card, which can be ultimately used to obtain a passport. Forget

& fronts that you can appear to be several different people. The law generally prohibits using assumed names for illegal purposes, but sowing bureaucratic confusion is not against the law.

85. "BY APPLYING THESE TECHNIQUES YOU CAN BECOME EFFECTIVELY INVISIBLE TO THE BUREAUCRACY BY BEING TOO VISABLE. Too many parts of you will be visible under too many identities & it will take a major investigative effort for the government to find the real you. All this may sound silly or childish, not to mention being a lot of work for very little gain, but it will make very good sense when bureaucrats are crawling through society like termites in the wall of an old house."

DON'T FLAUNT IT--STAY INCONSPICUOUS

86. "BEING INCONSPICUOUS SHOULD EXTEND TO YOUR PERSONAL LIFE, as if you're doing well when times are tough, you don't want to advertise it, possibly arousing the resentment & interest of criminals & bureaucrats alike. In a Chinese city you can't tell the houses of the rich from the houses of the poor, as both present the same blank facade to the street. The difference is that the rich man's house might occupy an entire city block & have magnificent gardens & beautiful rooms, while the poor man lives in a single room."

87. TO SUPPLEMENT YOUR ALTERNATE ID, whichever type you have chosen, you can order easily through various mail order houses, school diplomas, certificates & degrees.

Legal: Once you have disappeared, it would be a good practice to do without a bank account, as it will take expert alternate ID to open one under an alias.

LIVING FREE

88. "IN GENERAL IT IS BEST TO LIVE IN A LARGE CITY where you can have the protection of anonymity. Avoid small towns where the only sport is gossip--about you. Your business should be no one else's."

89. HOUSING: WHENEVER POSSIBLE, TRY TO RENT YOUR HOUSING USING AN ALIAS. When you do rent, change the locks on the doors, & don't give a key to the landlord, as in this manner you can avoid having unwelcome visitors go through your things while you are out. Any 'selah' papers etc., should be kept locked up & out of sight from the casual visitor or snoop. Misleading, innocent items can be left out in the open for all to see.

90. A SIMPLE WAY TO KEEP PRYING EYES FROM LOOKING IN YOUR WINDOWS IS TO HANG

However, if you cannot obtain this, you can accumulate a variety of types of privately issued ID, which can serve in many situations as protection from harassment.

65. AMONGST THESE FORMS OF PRIVATELY ISSUED IDs, there are a large variety advertised in such national tabloids as "Midnight", "The National Enquirer", etc. These include birth certificates, which can easily be copied, & ID cards. The author also recommends reading The Paper Trip 2, available from Eden Press, which deals with this subject of how to create, with a little imagination, a whole set of ID.

66. SUCH ID, ALTHOUGH NOT GOVERNMENT ISSUED, CAN STILL BE A HELP IN OBTAINING

FOREIGN CITIZENSHIP PAPERS, as many countries do not have such rigid controls as the U.S. & their documents can be duplicated or "bought" more easily, as many international businessmen can testify. In many cases it simply suffices to know the right "ministers" in the government.

67. MANY PEOPLE IN THE FAMILY HAVE FOUND THAT YOU CAN OFTEN DO A LOT WITH A SIMPLE ALIAS, & some have even rented houses etc. in this manner. By this we mean, for example, that if your name is John Smith, that for casual day to day business, when there is no real need or obligation to give your full name, you present yourself as "Mr. John". If you look respectable, people will very seldom challenge you for ID.

68. THIS CAN BE VERY HELPFUL IN KEEPING YOUR FULL LEGAL NAME OUT OF THE PUBLIC LIGHT, & only known by those who have to & have a right to know, such as government & law officers. Again, be prayerful & you could find that this simple method could be surprisingly effective. It's just such a form of elementary camouflage that the author has in mind when he uses the term "alias".

69. ANOTHER SIMPLE PRACTICE THAT SEEMS TO REALLY IMPRESS SYSTEMITES IS THE USE OF BUSINESS OR VISITING CARDS. If presented in the proper manner, they seem to confer instant respectability on you in the eyes of officials, agents etc. You can even get away with just having your name on it, or if you have a foreign address you can print that on it, as long as it doesn't endanger anybody's security at that address. Family members have found them to be particularly useful in establishing credibility as most of us do not have the usual business credentials & such

those "cute" newsboys & other corner delivery men will be noticed by neighbours, & could be fertile leads for future snoops about your habits at home.

NEVER ORDER UTILITIES IN YOUR REAL NAME

96. as utility companies are the first watering hole for snoops.

97. "WHEN GOING FROM THE OLD YOU TO THE NEW YOU, IT IS USUALLY A GOOD IDEA TO DROP ANY OLD HOBBIES that could provide the basis for a stakeout of your possible activities. Changing activities can be an excellent way of building your new identity, & will help your old ways to fade faster."

98. AVOID PUTTING YOUR NAME ON DOORBELLS OR MAILBOXES AVAILABLE FOR ALL TO SEE. A very good, inexpensive security device is a "fish eye" lens that can be installed in your front door, enabling you to see exactly who is there before you open the door or go out. Never open the door until you know exactly who is there & that they are friendly.

NEIGHBOURS

99. "J. EDGAR HOOVER STATED MANY TIMES THAT FULLY 90% OF ALL ARRESTS BY THE FBI ARE DUE DIRECTLY TO THE 'HELPFUL CO-OPERATION' OF NEIGHBOURS & RELATIVES. Need we say more? Your neighbours are the most dangerous people that you know, & you can include relatives here too. They will all snitch without compunction, & consider it fair sport to call the cops. Be friendly with them, but on your own terms, superficially nice, but in reality have as little to do with them as possible. Ideally you don't want them to know anything about you."

100. "AVOID RUN-INS WITH THEM, OR ANTAGONISING THEM by throwing wild late night parties, as an old unresolved grudge might be just the spark that sends an investigator to your new location. Getting even is a passion that few people can resist. Never tell neighbours where or for

Your neighbours are the most dangerous people that you know, & you can include relatives here too. They will all snitch without compunction, & consider it fair sport to call the cops. Be friendly with them, but on your own terms, superficially nice, but in reality have as little to do with them as possible. Ideally you don't want them to know anything about you."

100. "AVOID RUN-INS WITH THEM, OR ANTAGONISING THEM by throwing wild late night parties, as an old unresolved grudge might be just the spark that sends an investigator to your new location. Getting even is a passion that few people can resist. Never tell neighbours where or for

those "cute" newsboys & other corner delivery men will be noticed by neighbours, & could be fertile leads for future snoops about your habits at home.

96. "NEVER ORDER UTILITIES IN YOUR REAL NAME, as utility companies are the first watering hole for snoops.

97. "WHEN GOING FROM THE OLD YOU TO THE NEW YOU, IT IS USUALLY A GOOD IDEA TO DROP ANY OLD HOBBIES that could provide the basis for a stakeout of your possible activities. Changing activities can be an excellent way of building your new identity, & will help your old ways to fade faster."
