THIS NEXT MACHINE WE ARE LOOKING AT IN PICTURE

'10' IS A CHINESE PHOTO-TYPE MACHINE. We don't have one of these ourselves, as they are very expensive. This is used for typing our titles & other Chinese characters. As you can see, it looks somewhat like the other

Chinese typewriter, but it is quite a bit bigger. In the middle of the machine you can see a series of tubes which are actually lenses. Combinations of these produce the type in different sizes.

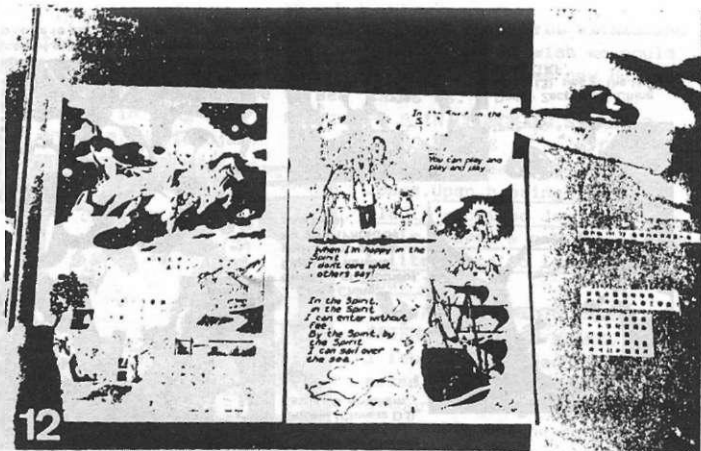

IN PICTURE '11' YOU CAN SEE A CLOSE-UP OF THE CHARACTER TRAY, & you can see the characters with the light coming from underneath. The characters in this case are on small glass plates which look like printing negatives. Going back to picture '10' you can see the white barrel on the top of the machine. It's inside this that the photopaper is. The image of the character

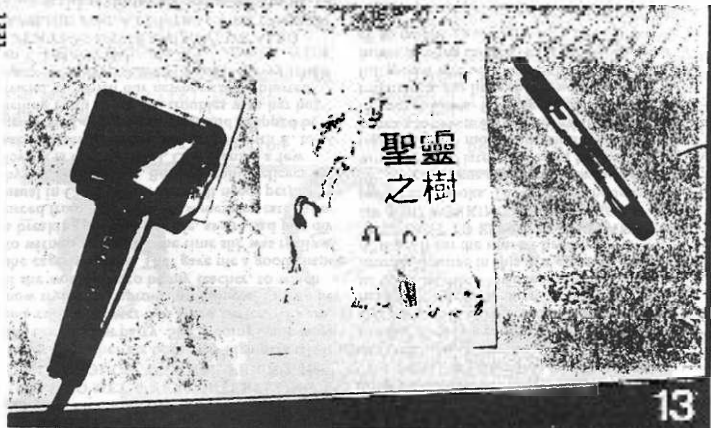

lenses onto this photopaper & later it is developed like ordinary photos.

NOW TO PICTURE '12', & WE ARE LAYING OUT THE TYPING on the "Spirit Tree" TK. The typeset has been done to fit over the English words.

IN PICTURE '13' we have the photo-typeset title put on the front page, & now the Komic is ready for printing, after a final check for any mistakes in layout of type.

So we hope this has been an interesting visit for all of you & helped you to understand more

about our work. WLY!-- The Chinese LIT-PICers! ("--TERRIFIC! PTL! GBY! KEEP'M ROLLIN'--ILY!")

"Changing The World" In China!

"We pray that our tiny beginnings, our little shoot, will grow into a full grown tree soon & eventually into a whole forest reviving this barren land."

From B. & E.; Orient:

Dearest Loved Ones,
GBY! WLYSM! WE ARE B. & E. CURRENTLY LIVING IN CHINA & we want to tell you how moved we were when we were told that you would donate a video for us to help in our work here. I (B.) don't cry easily, but with tears in my eyes I felt like I was receiving a gift in a way similar to Salvation, something we didn't really feel we deserved, or had earned,--from somebody who we don't even know personally & who doesn't know us personally, yet bestows such trust & faith in us that we will be faithful stewards for His glory over this wonderful tool of inspiration & teaching. Not only will the video bring us so much closer to the Family in our isolated situation, but more so, it will be an ideal means of feeding & inspiring our precious sheep here with the help of the Chinese Lit Pic, who have recorded special tapes in Mandarin for us, GBT! It is really the answer to our prayers, as we were desperately thinking of how we could improve the possibilities, limited by language & social barrier, of supplying the milk to our hungry babes, as well as ministering to our foreign friends.

WE REALLY DON'T KNOW HOW TO THANK YOU FOR YOUR FATHERLY & MOTHERLY CARE & CONSIDERATION, dear Dad & Maria, & the only way we can think of is to do our best to use this wonderful tool to win many to Jesus & make them fishers of men. We clearly see the responsibility you entrust with this gift & pray we can use it to the utmost for His glory.

Much love & our most heartfelt thanks,
P.S. WE ALSO WANTED TO THANK YOU ESPECIALLY FOR YOUR TIMELY ADVICE on our question as to whether we should stay in China or not. It helped us very much to be single-hearted & to put our all into helping the sweet people there. Once we had made the decision to stay, the Lord added several precious souls to our family within a matter

of weeks, PHN!

P.P.S. WE ALSO WANT TO WRITE A LITTLE ABOUT WHAT HAPPENED DURING THE LAST 3 MONTHS since Ho & Ruthie left. After receiving Dad's encouraging message that we should stay on to do our best to reach China, it seemed like the Lord wanted to entrust us with more precious people to take care of.

FIRST THERE WAS L., A TAILOR-GIRL who works sewing costumes for the army's theatre group. We had been becoming friends as she was really sweet, & one day we witnessed to her through a friend, as she speaks very little English. To our surprise she seemed very closed & said everything can be explained through science. However a few days later, when E. talked to her alone in a mixture of Chinese & English, she was totally different, open & receptive & eagerly accepted the Lord in her heart. That was a very important lesson for us, to show how suspicious the people here are of each other through all the political turn-about & upheavals of the past. Since then L. has been a very faithful student of the Word.

SHE ALSO WITNESSED TO HER BROTHER WHO GOT INTERESTED IN THE LORD. He is an accountant for a Chinese company & when he was sent to Kanton on business, some Americans in the airplane gave him a little book in English & Chinese with some stories of the New Testament. He really wanted to know what it was all about but said he could not understand. So we showed him John 3:1-8 & his sister read him the "Love Is God" tract in Chinese. After he had prayed the little Salvation prayer in there, he exclaimed, "Now I can understand! Thank you so much!" This boy is quite a rebel & really wants to do something different. The Lord also let him fall in love with E. & she had the opportunity to share God's love with him, after he had asked her many questions about what God thinks about sex, marriage, etc. Sex & affection are really great needs of the people here, but difficult to
