

THE FAMILY ARTISTS

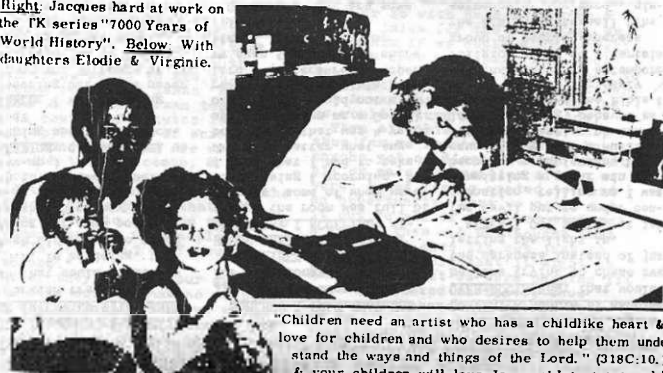

Jacques Elan

of MO-Letter Posters for the walls. Afterward, I requested to go to French publications again, & this time the Lord opened the door & I was there 1 year, learning about lettering & layout! God bless Philippe la Plume, he was the first Family artist that I met (at that time) & he helped me to learn a lot!

The most important burden of my heart was still to draw & illustrate the MO-Letters! So PTL, just at this time the RNR happened & I saw Hart's letter in the F.N. ("Wasted Talent!") so I claimed my desire to draw & soon received my first assignment--"All Things Change!". At the same time I met my wife & the Lord immediately blessed us with our first daughter. I've now been drawing Komix about 4 years & I've learned a lot--and especially one big lesson: to be faithful and "schtik". God bless you! I love everyone of you! Much love, Jacques Elan

Right: Jacques hard at work on the TK series "7000 Years of World History". Below: With daughters Elodie & Virginie.

"Children need an artist who has a childlike heart & a love for children and who desires to help them understand the ways and things of the Lord." (318C:10, 1- & your children will love Jacques' latest artwork"

My name is Jacques Elan & I'm French.--& I'm a Sagittarius. Ever since I could hold a pencil I drew and wanted to be an artist. My grandfather & an uncle were well known painters in their time. I was very sick during all my youth, so I stayed at home most of the time reading or drawing.

Before joining the Family, I worked for 3 years as a medical orderly in the French military, & during this time I saw a lot of suffering & pain which made me start looking for the meaning of life. Just after I left the Army I met the Family, & it was the answer to all my questions. When I joined the Family, I was so moved by the MO-Letters, I asked my Shepherd to let me draw & join a Publication team--but I had a lot of lessons to learn first & the Lord asked me to forsake everything--even my drawing, which was the most important thing for me--to be a faithful servant.

Then one day Paul & Marianne asked me to work on some Posters for a special witnessing Home they were opening in southern France, so I illustrated a lot

Nathanael Anani

(Nathanael also puts a lot of prayer into his editing & powerful TK graphics, & they're some of the best in the Family! Last year he made an all-time record by turning in nearly 200 pages of illustrated TKs! GBH!--Hart.

Hi! ILY! GBY! I think it's an honour to be able to draw for such a wonderful Family! Of course, nobody would be drawing at all without the Revolution Dad started! I've been drawing TKs for nearly 3 years now!

I was born in Kingsville, Texas in '53 (an Aquarian) & was drawing ever since I was a little boy. I was studying at N. Texas State Univ. in Denton when I first met the Family in '71 on the Campus, & later in '73 when I got some lit at a concert.--I especially remember "Mountain Maid" & the classic cover illustration!

I was a pretty cold, calculating, Athletic Episcopal Aquarian & not easily persuaded or converted, but something happened in late '74 that finally got through to my hard heart & thick skull. I was working at a truck-stop in Denton & came to work at 11:00 PM, & there was this cute girl & 2 guys hitch-hiking north to fitness at a concert in Oklahoma. She asked me if there were any trucks going north--& within a few minutes after we met she let me kiss & hug her! Wow! I loved it! We corresponded & she visited me later & made love to me, trying to get me saved, but I was so hard (4 years of University will do it to you) I think she gave up on me.

Things got worse for me: I hated school & I was into drugs, working at part-time jobs to support myself--a very dismal existence--until one night while working as a night auditor in the Holiday Inn, picking up trash, I found a "Deluge!" Letter all stranded on top of an ice machine! Rolled gold! I immediately had memories of this cute Mexican-American sister who'd flirted with me, so I called the Home in Ft. Worth, & the angelic voice of Chaledonia answered & gave me directions to their house.

They called everybody downstairs to pray with me--how embarrassing!-ha! But the Lord had brought me to a very desperate point in my life & I prayed because I liked & trusted them. After I prayed, everything began to change for the better. The next day I read "Mountain Men!" & "Freaking Ali!" & decided to drop out of University with "yet 4 months" before my degree (my major was painting & drawing). Thank God for deliverance!

So I joined the Family in Mar.

'76 & came to (the isles of the east) in '77 to do art for the PM. He never used any of my drawings, but I was happy to have made my Great Escape. I sent in my 1st TK in '79 ("Miracle Motor!"), & the first time I sent it, it got stuck in the P.Q. for 6 months!--and finally re-appeared in our Box marked "Return to Sender". So I had many setbacks & trials, but I was determined to use the talent God had given me & draw for the Family.

Since Christmas '80 I've been working almost full-time on the TKs! TTL! That was always my heart's desire: to be able to help illustrate the MO-Letters. So that's how I joined the Family & started doing TKs!-- thanks to rolled Gold & an F.Fer. (318C:10, 1- & your children will love Jacques' latest artwork"

Come East!

The Hexagon Earthquake!

BATTLES AND VICTORIES IN A WAR OF THE SPIRIT WORLD!

GIJPN! Recently Elijah took a few of the kids for a walk at night and took along a flashlight. While out they saw 5 or 6 rats down in the open sewer. A couple of times after that Eli and I went out on walks to the store at night and tried to nick off any rats we saw with rocks.

Shortly thereafter, Eli started having nightmares about rats and Rebecca also started having nightmares about rats as there was a rat in the wall of our room that we can hear scratching and making noises at night sometimes.

Remembering that Dad said animals can have bad spirits, we prayed and rebuked these rats and nightmares and didn't have any trouble from them for a long time.

But shortly thereafter we started having problems with 1 of our disciples, and after 3 weeks of counselling and trying to help, we had to ask them to visit home for a while and hopefully work out their problems.

This burdened us greatly, and while lying in bed discussing it, the rat (which we hadn't heard since we last rebuked it), started gnawing on the woodwork right by our heads! We immediately started praying together and sneaking in tongues and rebuking the devil and Oplexicon and their demons, and while Rebecca was praying she started getting the name "Hexagon". So we started rebuking Hexagon and agreed together to bind

him and cast him into the sea in Jesus Name! Immediately the rat stopped and we haven't heard from it since.

The very next night, at about 11:30 p.m., a strong earthquake hit our city for 45 seconds, immediately knocking out the lights and shaking the house. I ran into the kids room to comfort them and they asked what's happening and I said, "There's something happening in the Spirit world."

Elijah, the moment the lights went out, started looking out his window searching for some light in his darkened, shaking room, saw a big falling star!

After the quake with everybody awake we all got together and prayed and discussed the lessons learned from it and what to do next time. Most of the discussion was about flee bags, contingency plans and preparedness as none of us had matches or candles ready, the lanterns were empty of fuel, flashlights were broken and some of us did not have flee bags ready., etc. Elijah also kept mentioning the falling star that he had seen and really felt it had something to do with the earthquake. After praying together we all went to bed. The next day there was nothing in the papers about the quake.

The next night, Elijah and I went to a mechanic friend's house (he's working on my car) to visit him and witness to him

more. We also brought over some wrenches and a screwdriver for him. When we were leaving we were showing him how the screwdriver worked. (It was one of those screwdrivers with interchangeable tips.) While looking at it, Elijah said it was an octagon, but it had 6 sides to it so I said, "No, it's a hexagon", and when I said "hexagon", I said, "Wow, Hexagon!" Then I remembered that just 2 nights ago we had rebuked Hexagon, and it all fit together! 1.Us rebuking Hexagon. 2.The earthquake the next night. 3.Elijah seeing the falling star!

Wow! The "Spirit" was bearing witness with my spirit as I walked home with Elijah telling him we rebuked Hexagon and how I felt that's why the earthquake happened. We still hadn't heard anything about the earthquake, (except rumors), about the intensity, damage, epicenter (or origin) of the earthquake, etc.

The next day the papers carried the news about the earthquake: **Epicenter: Our City**, near the coast at the bottom of the sea. **Intensity: 6!!!** **Damage: The only damage was a**

From Ruthie: Orient: PTL! This article appeared only a few days after our return from three weeks in China! (Around Sept. 11 or 12)--our "follow-up" team of angels affecting change in China to our favour! Also, the next week Michael Christian & his wives all saw several UFO's hovering & disappearing over our realm. Homes. PTL!

Mystery object in the sky

Peking, Sept 12. A small white object appeared high in the sky over

Peking today, arousing some interest among city residents following a spate of reported sightings of unidentified flying objects. The object, apparently motionless, could be clearly seen in the cloudless sky. Some people telephoned foreign reporters to ask if they knew what it was. In Peking's main shopping street, Wangfujing, scores of people gazed skywards and engaged in lively debate over what it could be. It was not a plane because it was not moving. Neither

big church bell tower collapsed! Wow!! We could hardly believe it!

Hex: N 1. An evil spell:curse 2. A bad influence on or dominating control over someone or something. V 1. To bewitch 2.To wish or bring bad luck to. (Greek Hexe, witch)

Maybe his name is Hexagong-like gong- like the bell tower that collapsed.

I don't know, but he must have had a pretty big influence to cause such an earthquake when we rebuked him! Wow!

The earthquake really shook up alot of people. Many said they thought it was the end of the world, and have been asking us alot of questions about the end-time. We also were amazed that not only was no one hurt, but there was also no damage except the bell tower! Maybe it's because everyone has been really receptive to us here!

TTL! We have but to utter the name of Jesus to fell all the demons in hell! GBY! WLY! Jared Wood

was it a satellite because it would not be visible in broad daylight. And it was much too high for a kite. Many people concluded that it was nothing more exotic than a weather balloon. The New China News Agency issued a lengthy report yesterday of a UFO seen in China and more than a dozen provinces in late July. The object was described as being like a bright, spinning spiral. --Ruter.
