

that's going on around him to Davidito. I've never seen such a smart one-year old." Grandma's right!

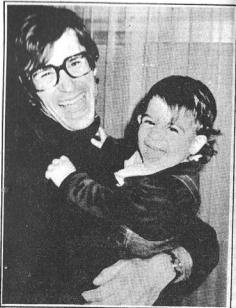

10. ANOTHER NEW STAFF MEMBER JOINED OUR LITTLE TEAM--LYNN, who came to help with the children since I was expecting my baby this month. When she first came to the house she had no idea who this "little brown boy" belonged to. The folks were very busy working and she didn't realize just whose house she was in till she met them 3 days after she moved in!

11. LYNN BECAME A REAL BLESSING in helping take care of not only our new little baby, but another bigger baby--Bernardo, a fulltime live-in fish friend who is still one of our most dedicat-

ed disciples from the Canary Islands. PTL!

12. DAVIDITO WAS SUCH A GOOD BOY WHEN WATCHING DAVE WORK IN THE GARDEN. He never touched the tools, only stretched out his curious little hands and "felt

the vibes" all around them. He acted so disgusted that Dave would get his hands dirty, but he was extremely interested in what Dave was doing with those tools.

13. ONCE WHILE RACHEL WAS HOLDING DAVIDITO OUTSIDE in the garden, he began to look far out into the banana fields in a very eerie, sober way and slowly waved as if there were someone there he was communicating with! Daddy explained that he was waving to his ancestors who surrounded this area in the spirit and who are very glad we are here!

14. DAD REALLY UNDERSTANDS DAVIDITO AND INTERPRETS AND DISCERNES HIS THOUGHTS for us. The Guanchan ancestors' spirits have begged David to help their children, and this is why the Lord brought MO to Tenerife and gave us little Canarian Davidito!

15. WHEN HE GETS REAL EXCITED about something he squinches up real tight all over, grits his teeth and gives a little shiver--it's really cute! We have never seen such an outwardly expressive little child!

16. HE IS VERY CURIOUS AND CONCERNED ABOUT EVERY LITTLE DETAIL. When he discovered the dripping

faucet in the kitchen, he took each one of us in turn by the finger into the kitchen to show us that it needed to be fixed! When I warned him not to push on the vacuum cleaner because he might fall and bump his head, he mimicked the act by falling to the ground and jerking his head to one side quickly, then he'd jump up and laugh and make sure that I approved of the way that he understood my warning.

17. ON 22 MARCH, 1976, LITTLE DAVIDA MARIA WAS BORN! Sally and Dave cared for Davidito while I was at the little local clinic, in the same room where Maria and baby Davidito had stayed!

18. ALFRED BROUGHT DAVIDITO THE NEXT DAY TO SEE THE BABY, but he had to sneak him into the clinic under his coat. When Davidito first heard the baby whine and cry, he banged his hand against his ear as if saying, "Listen, listen!" and pointed to the baby.

Then he went to the snack cabinet, grabbed the package of cheese crackers, and whined to get up by her bed to offer her one. And although he had never even seen me give the baby a drink of water from the bottle, the next thing he tried was handing her the bottle himself!

19. SEVERAL DAYS LATER DAVIDITO
