

For fishing notes—what?
 O, the little usually pink skin when the skin
 is impossible to contact to penetrate—the

back of the knees and in
 wrists and in
 between the
 fingers and
 toes. The
 little look
 like slight
 eruptions with
 a little bump
 at one end. I
 ate will lay
 eggs & the
 larvae will
 proceed to dig
 their own lit-
 tle tunnels in
 these tender
 spots of the
 body.

10. SCRATCHING
 CAN LEAD TO
 SECONDARY INFECTIONS SUCH AS LIMPING, so the
 germs must be cut very short and you must try
 to keep lotion applied to prevent the scratching
 which is very difficult to resist! Babies are
 very contagious. Contaminated bedding & clothing
 should be sterilized by boiling or special disin-
 fectant, and other family
 members should
 be checked out
 by a doctor to
 make sure they
 haven't picked
 up the condi-
 tion.

11. IT IS VERY
 IMPORTANT THAT
 YOU SCRUBBLE THE
 UNDER DIAPHRAGM
 THAT IT IS TAKEN
 CARE OF RIGHT
 AWAY & no bodily
 contact should
 be made other-
 wise until the
 condition has
 been cleared up.

We found that many Family members in Portugal
 had been plagued by these little ones, probably
 because of rather dirty conditions there caused
 by many poor, foreign immigrants pouring into
 the country from Africa.

12. OH, IT'S SUCH A BOWSERING, (NOTE TRAIL)
 The worst of all is that we made the mistake of
 referring to the eruptions as "bites", & Davidie
 would get almost hysterical at times scratching
 & crying over it. We developed a very fearful
 reaction to the term "bite" & actually thought
 that something was trying to eat him up. Thank
 the Lord, prayer & doctor's treatment got rid
 of the eruptions, & it was another lesson learned
 the hard way, because we'd never heard of or

experienced such a skin condition before!

 2 YR. & 3 MO. - I WON'T PRACTICALLY ASSESS IT YET.

14. HE'S REFUSED TO GRAB WITH ME.
 I tried to explain the im-
 portance of being
 more respectful of the Lord, so he tried
 harder to at least sit still and quiet as long
 as he could hold a toy or something in his
 hands. He still refused to grab in a group,
 but he'd hold hands in the circle & keep
 his eyes open.

THE LESSONS

learned, and follow the Lord's leadings is possi-
 bly sharing the same kind of gentle love and
 fun, without stumbling our little souls? You
 know, some things have been omitted from
 this story simply because it's sometimes hard
 to explain the exact situation in words with-
 out you actually being there to experience it
 with us.

17. DO WE EVER ATTEMPT TO SHARE A FEW OF OUR RE-
MEMBRANCES WITH YOU, not so that you will try to
 do exactly what we do, but because it's a part
 of little David's little story. Prayers the Lord!
 IN THE MONTH OF APRIL, AFTER SAYING, ALPHEE,
 MARYLIN & I WERE ALL THERE LOVING UP, when
 Dina looked at us with those big dreamy Cana-
 dian black eyes & said, "Dada, I job you!" He
 pointed us down to kiss him, then pushed up head
 down to kiss some more!

18. IT ALL DEVELOPED SO GRACEFULLY & LOVINGLY,
 THAT HE BECAME MORE ATTRACTIVE, eyes closed.

21. I GOT OUT A PICTURE OF A COUPLE SITTING
 UNDER TREES on a bench to add to one of his
 reading books. He "wink" me understanding in the
 man's organs & always points to the girl, but
 even looking at the boy, like he's not supposed
 to or something. But when he thinks I'm not
 looking, he'll sneak through the book & try to
 find that picture, & really stare at it!

22. URING THIS TIME WE SAW TWO DOGS BARKING
 LOUD, one our
 afternoon walk
 & I told him
 how all male
 animals have
 penises, and
 God created
 them for mak-
 ing love and
 making babies,
 etc. He ex-
 claimed for a
 long time af-
 ter that, every-
 thing he
 felt embar-
 rased and
 about a
 penis, that
 "all animals
 have love:
 dogs, cats,
 birds, bats,
