- AND YOU!

KING  
DAVID  
FFS  
A  
NEW  
BRIDE!

Edited & Illustrated  
by Marina.

Bless her Lord, my handmaiden, handmaiden of the King! You're the Lord's bride and mine too! I love you!

You must be special, special, special to the Lord! Out of all those He could have chosen, He chose you for the honour!

The Lord hath rewarded thee because of thy great love for thy Father David!

The Lord told me, "Your waiting shall not be in vain!"

It's a pretty nightie, but I think I like you better!

"Your King is waiting for you! The Lord brought you here into the King's bosom to be loved. This is like our betrothal."

"You're going to bear me many, many children in the Lord.--And when you're taking care of them remember me, that you're taking care of them for me and for Jesus."

Come in--  
we'll take  
care of  
you!

We're  
hungry and  
thirsty and--  
and...

"Open the door for the children, tenderly gather them in,..."--That must be a special little song for you!  
You're a mother for my children!

"At the King's right hand there are pleasures forever more!" (Ps. 16:11)  
--Does that feel good? I love you!

If you want to squeeze something, you can take that famous rod in your hand, the King's sceptre. Ah, now you make me forget you!

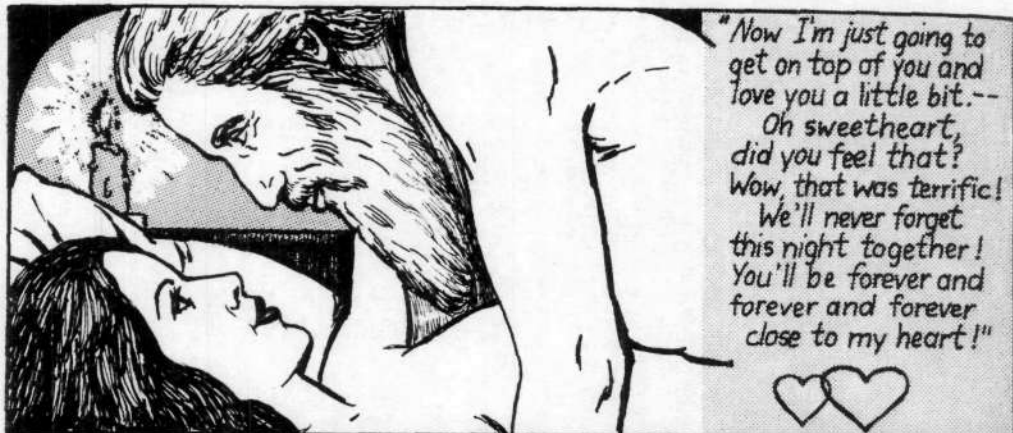

"Safe in the arms of Jesus, safe on His gentle breast!-- There shall thy heart be happy, there thou shalt find sweet rest!"

Just then I saw your own father in Heaven!-- He understands now. He is very happy for you! It means you have a father who loves you.

"Bless her, Lord, with much more love than this!  
Thank You for how You have blessed her with much more than this, with my spirit and my words. Give her a companion that can be close to her all the time--someone that can love her, and will love Thy Words."

"Now I'm just going to get on top of you and love you a little bit.--

Oh sweetheart, did you feel that? Wow, that was terrific!

We'll never forget this night together! You'll be forever and forever and forever close to my heart!"

"Anytime you feel lonesome just read my loveletters and know they're to you! To you!-- To Your children, my child, thank You Lord!"

"I hate to let you go now that we've just found each other.

Come back, one more Kiss, one more Kiss!"

"Help her, Lord, to always love me like she does tonight, and more everyday, and to feed my sheep with the Words.

May she go back to her work rejuvenated, renewed, revived with new strength and inspiration, now that she knows her husband, now that she knows her lover, now that she knows he loves her!"
