Children & Sex

It should be seven days from the first day of your period-- that's the day of the week he can start making love to you, the following week.

I love you!

& ILLUSTRATED
BY TIAGO

Constant action, lots of walking, dancing etc. are the best thing in the world for...

...a pregnant woman. Lots of exercise, hard work, whatever she feels like doing, but don't overdo.

It's better by all means for you fellows that have pregnant wives to take it easy on them sexually after about the 7th month.

Also you men with pregnant wives should try to avoid the periods when she would normally menstruate.

God has his own built-in quality control. The body itself checks...

...on the normality of the conception to make sure it's all right and if it's not right it rejects it!

Oh, No!
I lost the pregnancy.

God knows when you should have a child and when you shouldn't have one.

God is obviously diametrically opposed to any form of birth control.

Pregnancies from sex need no longer be considered as obligation to marry as before.

But every child needs to have a father even if it's not his own. So why in the World haven't you men got the guts to...

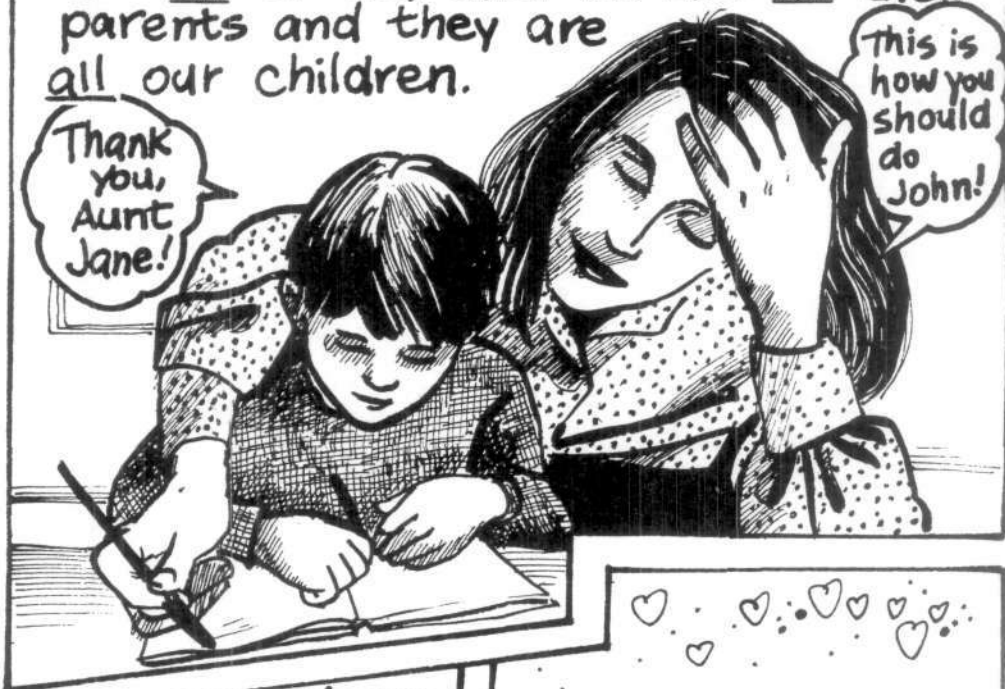

...marry these girls? Anybody could give the children the individual attention and tender loving care. Anybody could be a father or mother to them.

Our children belong to the Family and all of us, and we are all their parents and they are all our children.

Thank you, Aunt Jane!

This is how you should do John!

We are all responsible for them and we should all contribute to their education...

...and well being, all of us!

OUR CHILDREN ARE THE FUTURE AND FOREVER!--

What are you doing to help them and their Mothers?

WE LOVE YOU!
