CHILD BRIDES

The teenage years were when I had the highest ideals. That's when I needed to get married the most! The girls are at the most beautiful bloom at that age and the boys are the strongest and sexiest! Now why did the Lord make you able to have children at the age of 11, 12 and 13 if you weren't supposed to have sex then? Why did God make you need sex so much at those ages unless it was His will? Why?

I want to live with you!

I am already 15, why can't we see each other? She's a good all-round girl and I want to marry her!

So what if I get pregnant! I'm smart enough to be trained to take care of a child!

I forbid you to see this young girl again, period!!!

But Dad, I love her!

I believe God's system is the best! He must have known that was the best age to get married. It's the older generation that always objects and makes such a fuss about it when the kids want to get married young.

Some of the best relationships of parents with children are young parents where they're almost like brothers and sisters.

By the time the kids are old enough to have children, the grandparents are only 30 or 40 years of age and they can be much more help with the grandchildren because they're still young and can take it.

Thank you so much for your help Mom!

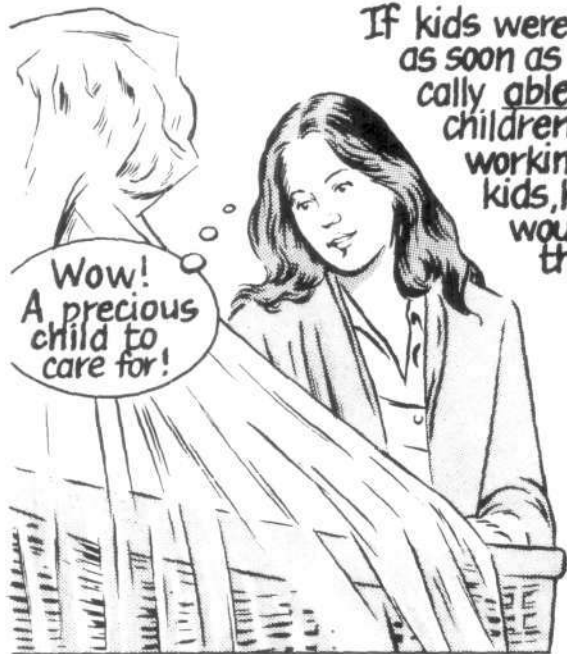

I love to take care of him!

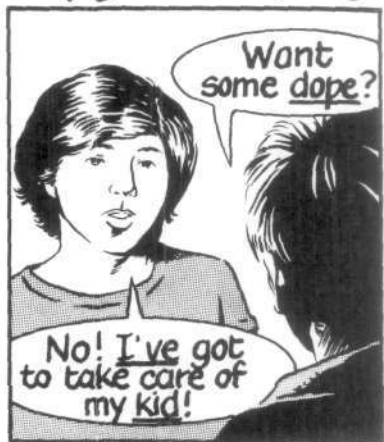

I don't know what we would do without you, dad.

I finished the bed for the little one!

If kids were allowed to get married as soon as God made them physically able to get married and have children, they would be so busy working so hard taking care of kids, house and mate they wouldn't have time to even think about crime or all the other hanky-panky they get into so young!

They know enough to teach that child the simple things of life, growing up. They're kids themselves and they could play with the children and enjoy it!

-- God bless and help you to find Jesus so you and your children can have Him forever! Ask Him into your heart today! We love you!
