TO A STAR!

Illustrated by: Caroline van Art

Times, methods, and God's new plans are constantly changing and revolting like a wheel speeding toward the goal of the new and leaving the old far behind! It's the same wheel with the same centre, spokes, and rim, but it is constantly changing speeds and directions and sometimes leaving the old forever, never to return!

Sometimes its tire may grow tired or flat without inspiration... But it's still the ever-revolving revolution of God's Kingdom with its same basic rim of certain limitations and rules supported by us, the spokes, firmly embedded in the central Hub of God Himself and eternally turning on the axis of His Will, geared to the power of His Spirit!

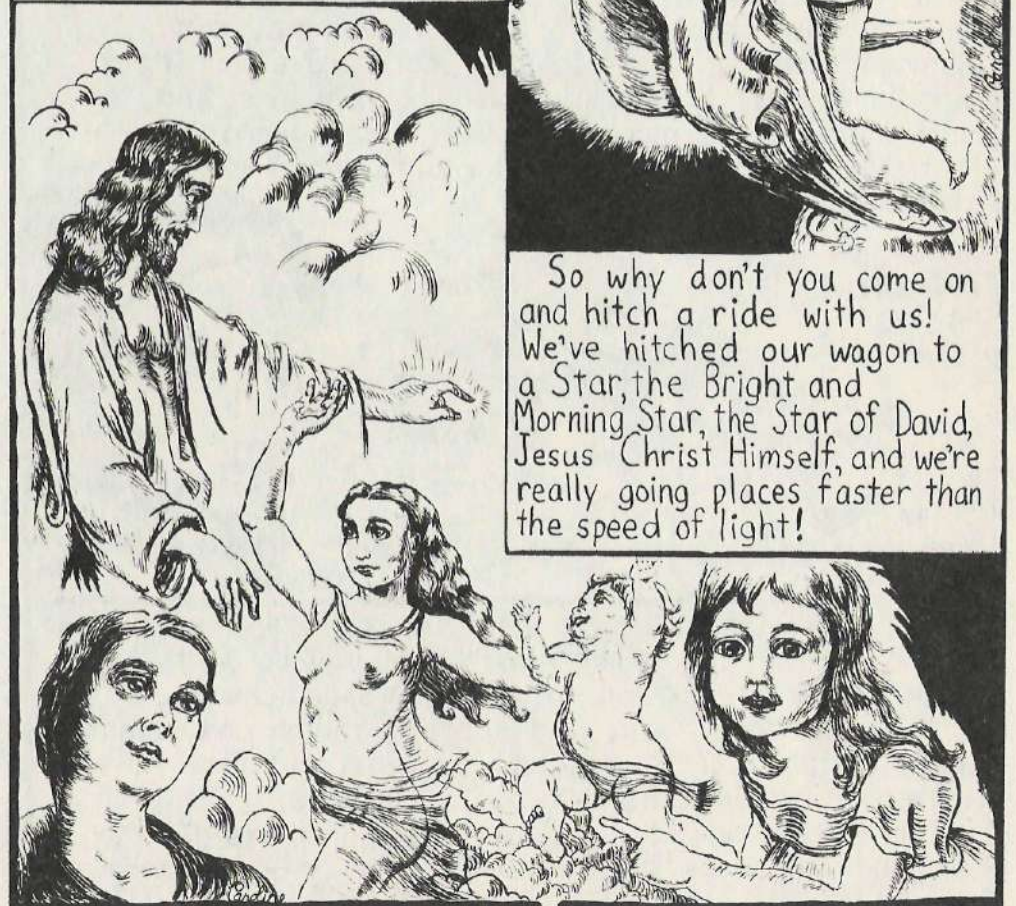

What a vivid illustration of how God operates the vehicle of His Kingdom!

And one of these days soon He, the Owner, will even be trading in this old worn out fleshly earthly model for an entirely new Heavenly model that can even fly and with a lot more power than we ever dreamed of, and which can circle the Globe in nothing flat and visit other planets and stars and ride the whole range of the Universe! And it won't take days or weeks or months or years, not even light years, but with the speed of thought!

So why don't you come on and hitch a ride with us! We've hitched our wagon to a Star, the Bright and Morning Star, the Star of David, Jesus Christ Himself, and we're really going places faster than the speed of light!

We're exploring unknown worlds of the Spirit known only to God and His Heavenly Kingdom! Stop this World- I wanna get off! And that's exactly what we're gonna do one of these days soon! Would you like to come with us? Then come on now before it's too late, or you may miss that Heavenly flight and have to stay here and sweat it out with the rest of the stupid idiots who think they know so much and have so much time when Time's gonna grind to a halt soon while we enter the Eternal Now and leave the rest behind!

Don't let all these nagging little details get your minds and hearts off the end of the road! There may be a lot of flats, car troubles, breakdowns, repairs, delays, and changes, but we'll hit the road again and keep on rolling and nothing can stop us 'til we've reached the end and that Heavenly City with its Space King Who makes it worth it all! Please refer to the Maker's Manual and specifics for accurate information! Have a good trip! Bon Voyage to Eternity!
