SPIRITUAL COMMUNICATIONS

Edited & Illustrated by Daniel Sky.
Some art by Eman.

The spiritual power of God works for you.

God answers your prayers. He amplifies (makes greater) the power of that prayer to influence the person you're praying for. Your prayer has power. It does things because God lets it, or empowers it to do so.

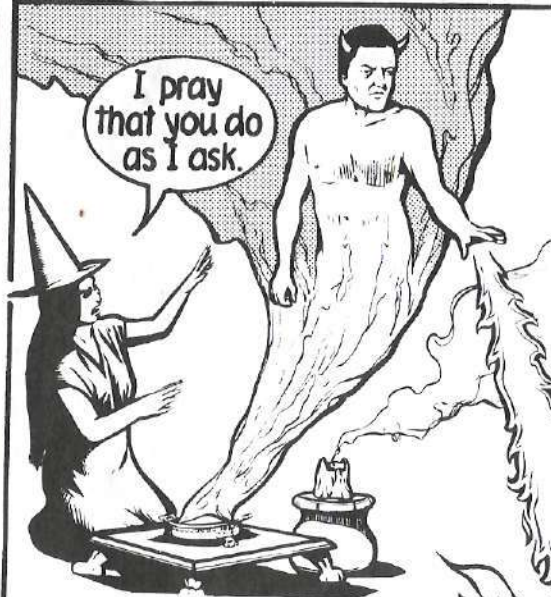

When you pray, you shoot a beam to the Lord. If you're praying according to His Will, He receives it and amplifies it and lets it do what you want it to do.

If you love the Lord, what you receive from Him is good, and gives you faith, joy, hope, love and praise.

The Lord's child, if he's in the Spirit, will be in tune with God's protective power and under the shelter of His wings.

If God has ways of communicating (giving and receiving messages) in the Spirit World, what about the Devil? Do you think he has?

Of course he does. Just like God has His children, the Devil has his children, and he has his ways of communicating.

Just like God's children can pray to the Lord and ask Him to answer, the Enemy's children can pray to the Devil. Bad witches and wizards are real. God has given the Devil certain powers, but they are mainly over his children, those who aren't protected by the Spirit of God, those who have rejected Christ!

You cannot harm this little one! He belongs to Jesus!

But we, God's children, don't have to worry or fear Satan's power because we are protected by the power of the Holy Spirit, which is far greater than the power of the Enemy. "Greater is He that is in you than he that is in the World." (1Jn.4:4) The power of the Lord is greater - much greater!

God's Spirit protects and overshadows His children. It's impossible for the Enemy to harm you unless the Lord allows him to as a spanking for something that you've done that you're not sorry for.

Science is really studying E.S.P. now. E.S.P. means Extra Sensory Perception. (Being able to sense things in the spirit - like people suddenly waking up the moment a friend or loved one died and knowing that they're dead.)

It's all very real and science is beginning to recognise it more and more all the time. They can no longer deny that these things exist because they've been proven by experience. Only they call it all by different names and big words like "extra sensory perception" and so on.

But no matter what big names they call it, it's still spiritual power and so whether they know it or not they are using the power of the spirit. And if they don't have the Lord in their heart, it has to be the Devil, no matter what good they are trying to do. The Devil and his spirits are answering their "prayers," you might say. So they're really playing with fire. They're really taking chances because they're not protected by the Lord. But if you're a child of God none of these things can touch you. You don't have to worry.

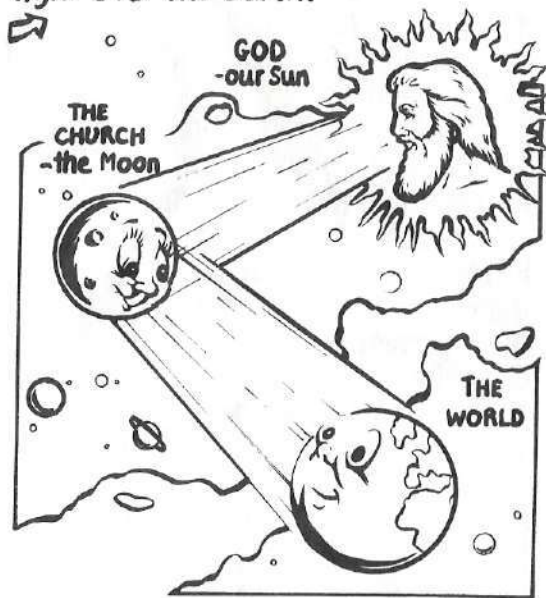

I was looking at the moon one night and thinking:

There's the moon shining so brightly, It's really reflecting the light of the sun.

In a way, God is not going to communicate with the world. Instead, He'll communicate with His own Children, and it's our job to communicate to the World, to reflect the light, the Gospel, to them.

The sun is like God, and the moon is a reflection of Him. It reflects the light to the world. The Church reflects God's light to the World like the moon reflects the sun's light over the Earth.

Fear not, I am with you!

How wonderful it is if you have faith and you're the Lord's child! You see the good and you feel good and you praise the Lord and are thankful.

If you're a child of God and you love Jesus, you have the Lord and His Holy Spirit in your heart and you're on His channel, you're hearing His voice all the time. All day long and even at night in your sleep you're receiving the Lord's communications.

Why, then, do we sometimes have bad dreams? Well, there could be a lot of different reasons. It could be something you ate. It could be something you were worrying about before you went to sleep, and you just carried on dreaming about it. But, if it's something really bad, and has nothing to do with what you were thinking about, then it could be an attack of the Enemy. He's trying to frighten and scare you. That's why it's important to always pray and ask the Lord to keep us safely and give us a good night's rest. If you're in the Lord, then you're His child, and you don't have anything to worry about. You shouldn't fear, you shouldn't worry. You know the Lord's protecting you. He keeps you, and gives His angels charge over you.

I'll never forget when we were walking along in the dark one night, and we came across a rattlesnake! I suddenly sensed its presence before I saw it or heard the rattle!

I'm sure that the Lord got the message to me by His angels, the spirits watching over us. It seemed like I could feel it.

If you're the Lord's child you're sensitive to the Lord.
