PILL OR PILGRIMAGE?

-MEDICINE VS
GOD'S HEALING

I just always think that if God wants to heal us, He doesn't need any help--and if He doesn't then nothing will help!

But I believe in washing hands and taking care of your body and giving Him a lot of co-operation. If you get a cut or something I believe in putting an antiseptic on it, and when I had a broken bone I had it set. So I guess we don't always expect God to do it all. He can do it by a miracle, but I guess He usually lets you do what you can do, and He does what you can't do.

... and please dear Lord, help me to keep trusting You, in Jesus' name!

Lord, we know that You are testing our faith when we have these trials to see if we'll trust You, or if we'll suddenly just run the other way and forget all about trusting.

So, Lord we just take it all as from You, and whatever You want to give us, or deliver us or whatever You want to do, like Job, it's our job not to murmur or complain, but to just trust You Lord, in spite of the tests and the trials.

"Many are the afflictions of the righteous, but the Lord delivereth Him out of them all" (Ps 34:19)
A double L, Lord, ALL --- not just some, or a few, or many, or most, but all, all of them! You've never failed!

Mmm...well these might help clear up the problem, but if they don't...er, ... come back in a couple of weeks and we'll do some more tests.

But how do the doctors know, how do they know? - They know so little about God, or the human body, and there's so much mystery to it that they couldn't possibly understand --- so how do they know that what they are putting into you is really going to help you or that maybe it's upsetting God's own natural means and His own natural resistances and created processes. Let nature take its course and trust the Lord ---

because if He can't heal it, nothing can! And if He wants to heal it, He can sure do it without all those pills and medicine. If we're going to trust the Lord, we have to trust Him, but if we put our trust in the doctors, we'll have to trust them. But the two don't go together very well!

I'm a
fighter for
Jesus!

The devil is a liar, and some of us scare pretty easy. When he says "Boo!" we run! When he says "I'm gonna get you!" we believe it and surrender. Oh, Lord, help us to put up a good fight, the fight of faith, put on the armour, all of its parts.

Take the sword of the spirit which is the Word of God and instead of surrendering, we should attack! There's no testimony without a test, there's no victory without a battle, there's no triumph, without a trial! We prefer the pilgrimage to the pill ---- the certain pilgrimage of faith in God!
