

FEAST PROPHECIES FOR OUR HOME—FEB. 17, 1999

(Grant) You know what it's like when you try to find personnel for your home. They're not always easy to come by and when you do find someone, you really hope they're going to stick around and do the job once they have the training. You want to see them put it into use. Well, that's kind of how I look at things too I try to find people for the job, and God knows, there are a lot of them that apply for the job. Many are called but few are chosen and so few chose to make it their full profession.

So when I do find people for the job I'm really happy for it, and I want them to stick with it. I intend to supply their needs and do all I can to make them happy if they will stick with the job. Because if they do the job then we'll all the get the job done and we can wrap this thing up a lot quicker.

So, if you're asking if you should continue doing the job, by all means, continue to do the job. If you're asking if there's a need for it, by all means continue, there's certainly a need for it. I'm sorry you have to do it in the States but that's where the need is. There are some who've said "The States may be the pits but it's a great place to make money". And that's really one of the main reasons you're here, to help make some money for the Family, and to try to get the message out to those who will listen. In that sense nothing has changed.

But where iniquity doth abound grace doth much more abound and that's what you got to look forward to. The worse it seems to be getting, and then the worse it gets, the grace will poured out in greater measure. Your candle will shine brighter, the light will go further and bring light to many more people than are presently seeing it. So, from that point of view, your job is going to get easier, it's going to get better, and it's going to accomplish more, just by sure reason of what's happening around you. So, there's no reason to worry about it! God's got the whole world in His hands, and He's certainly got you and every part of the world. Even if you have to start dodging the bombs, He'll make sure that none of them hit where you are. Even if half the country goes down in an earthquake He'll make sure your part doesn't.

So it's not even so much where you are, it's the fact that if you are where I want you to be. I'll take care of you. It's still the same ol' story, "Seek ye first the Kingdom of God and His righteousness and all these things shall be added unto you. Take no thought for the morrow for the morrow will take care of things of itself". Just get down to work, stay busy, keep one ear pinned to the ground and one ear pinned up to Me. Beware of the signs of the times but not hung-up on them. Don't worry about them put your trust in the Lord and He shall sustain you.

(Note from Grant: I wasn't sure who was giving this message, and it cam to me it was someone like a businessman who was appointed to the Board of Directors of a group who is running FCF from behind the scenes!)
